Nice job by you doing this. I'm not eligible for Ub3r at this point but I wish you the best of luck finding someone who is worthy.

Autononymous - July 31, 2014, 9:11 pm

Hello, i'm iClyde.

I really wish i had an ub3r upgrade because I like the blue name.

It'd be really awesome if you could upgrade me because I'm broke and i can't afford it myself.

I like to help the community with my graphics designs and i'm going to open a graphics shop with my friend very soon.

I also am going to open a free graphics shop for members to request some graphics.

Thanks for hosting this contest.

Hello there, this is MeshCollider's application for an Ub3r Upgrade

[img]http://x.hackforums.net/images/modern_bl/groupimages/english/ub3r.png[/img]

Profile Link: <https://hackforums.net/member.php?action=profile&uid=2015410>

Why do you deserve the upgrade?: Yes, definitely!

What contributions have you made to the forum?: I am always active, friendly, helpful and high quality. I have written heaps of tutorials on hacking and coding, including the biggest hacking tutorial on hackforums! My threads:

<https://hackforums.net/search.php?action=results&sid=99bd0bb71cf329ab9603b4e2b500c354>

I believe that if I was ub3r, more people would take notice of my tutorials and bother to reply to keep them alive and helpful for others. As ub3r, i would have more credibility.

I am really active in the coding section too, I help whoever i can with programming because i am very experienced - especially in Java.

I have only been on HF for less than a year, yet i already have almost 1900 posts and 80 positive rep (no negative).

I want to be able to give out more rep, and be able to give negative rep, because some people really deserve it, like people trying to infect other members.

I want to be able to sell some software in the OMC exclusives market to help the coin grow. I am currently coding an android wallet for omnicoin, to help it out.

I want to be able to post in the ub3r only section, and take a self account ban when I go on vacation.

I really need a bigger PM storage, because lots of members PM me for help and my inbox fills up fast. With more storage i could effectively help people easier.

Thanks man, I really appreciate the vouch. I also vouch for -sinister-, he is really HQ! He won another I33t upgrade contest a while ago but it was fake and he never got upgraded, so it would be nice if he actually got upgraded now! Thanks again for this great contest OP! ?

Snipist - July 31, 2014, 10:01 pm

I'm not going go on about why I deserve to be upgraded, because a lot of people just write a novel and life story of why they need it.

About all I can say, is I consider myself a overall nice person. Never have really flamed at anyone on the forums. Can't say I've been helpful but it's mainly because I don't browse certain areas of HF. I usually lurk around the marketplace and will sway to gaming/lounge.

The main reason I want it is because you pretty much have to be uber to post in the good sections on the marketplace now. Considering that's where I usually stay it'd help out. Thanks for being generous and giving to others, many don't.

Zylicx - August 1, 2014, 2:49 am

Introduction: I don't have a lot of contribution threads made but from time to time I will try and write HQ threads as I did on other forums. In every forum that I've joined, I always loved to write articles and tutorials for it. I can provide a lot of informative and helpful threads for the forum. If I get accepted, I will always stay dedicated. I have many skills and many of benefits I can bring towards the site. This site contains highest contributed members and I want to be a part of them. If you were wondering how old I am, I can tell you I am old enough. I dearly do hope you read through this whole application as I spent my time on it. I think that I should get accepted over the other applicants purely because of the fact that I like to consider myself as a HQ member who likes to offer people help with whatever questions or queries they have with pretty much anything. I would mainly like to get accepted because I would like to help out fellow members and also help out HF aswell . Possibly one of my last reasons as to why I should get upgraded over anyone else is because of the fact that I am always willing to learn or mentor other members for no price whatsoever. Overall, I think that I would be a valuable asset.

Why should I become L33T: I am always willing and try to help the fellow members and posters.

Never flame, troll, provoke or argue unnecessarily with others. Tend to keep a mature and calm behavior. Never post a rude reply or talk rudely with others, either in forums or in messaging.

Never post unnecessarily, only post when i think i can contribute to the thread and that too in a High Quality manner. Am always reporting bad, useless and other threads that violate the HF rules and TOS in any way. I always want to see HF clean and thriving.

I am always supporting other users, no matter new or old, if i think I can help them in any manner.

I want to receive free upgrade because i members will trust me more and i will be able to post in premium marketplace.I would like to open multiple services,which will help our members to achieve their goals. I also plan creating ebook,which will show our members how to earn money in a 'good' way.I would also help them to improve their knowledge about various things.

What contributions have you made to the forum?

-First of all,i am new member here.I am doing my best to help newbies at this forum.I am also revealing power of booters on hf market,so our members won't waste money&time.

dezatino - August 1, 2014, 3:06 am

Wow there are some fancy applications around here, don't really know if am going to be picked but it worth's the shot :)

Username: Dezatino
Age: 23
Looks: Good looking LOL
Applying for: l33t cr3w

Why should you sir dezatino, be a l33t?

Maybe you have never heard of me but let me make a brief presentation , I'm dezatino from GFX Free Section, I usually spend my time trying to help people in need of GFX works such as logos , signatures, thread designs. Maybe for some h4ck3rs or insane ub3r helpers around this HF doing this isn't much but for me I really like what I'm doing , and it's a great feeling when someone says thanks and you can see they are really happy with what I created. Along with that I've been learning alot so Hackforums gave me the oportunity to learn with this.

The reason for wanting l33t is not to be awarded for being in GFX section because that's what I like to do but It's to be recognized as a trusted member and start learning alot more with other l33t/ub3r members on GFX groups so I can help regular member's too. And with that start selling some stuff I have that I can't sell as a regular member.

I know maybe It's not alot compared to lots of people that will appear here but, It's a honest text from me ? and that's what you asked for.

Cheers mate , and you should be rewarded with a statue for this thread hehe ?

Why i deserve this!

Well i am on hacked forums a lot and have been making a shop for a while but there's one problem i am not aloud to post it on HF because its selling accounts and you have to be upgraded for that unfortunately and i just don't have that sort of money getting l33t could change my life from getting that money from the stuff i sell i will also let you have anything you want from my shop i sell alot of stuff trust me you will like it :) ill give your money back in shop items if you do get me this thanks VERY much ?

Edit:Im not very good with writing/layouts sorry

topastop - August 1, 2014, 6:50 am

Hello zack!

I think that I deserve to be upgraded because I have been a HQ member to the community. Why I say this you are asking? Well, besides making a huge thread with a guide to clean your PC from viruses and besides making HQ posts I also made OMC giveaways and organized a contest with [Ray](#).

I wish to be upgraded because I can gain access to the VIP area, have a larger PM size, organize contests by myself, become more trusted and, most importantly, be more involved with the community.

The ability and responsability to give rep to members is also important because I can use it as a way to encourage positive behaviors around the forum and discourage negative behaviors as well.

Please understand this: By upgrading me, you are not simply just upgrading a member. You are investing in me and by investing in me you are investing in the hole community due to my quality posts and giveaways. Becoming a L33t is not simply a reward, is a very big incentive to me to keep going and become even more HQ.

Thank you for the contest.

[-Sinister-](#)'s Entry for L33T

Profile Link:

UID: 2214473](#)

Why do you deserve the upgrade?:

I personally think I deserve the upgrade because I've tried my best here to help out as many people as I can on HackForums. With this upgrade, I would be more "known" and feel more "trusted". To tell you the truth, many people have a hard time trusting non-upgraded members, and I really hate that feeling, but I can't blame them. With this upgrade, I plan on doing a lot more contributions just like you! Helping out more often, and trying my best to give back as much as I can to the community just like you have been doing. I also would like to receive the benefits of a L33T member. Extra PM space is nice and access to the L33T section of the forum would also be a nice luxury. I'm currently a HQ member of the forum, but not many people realize that because of my member status. Receiving this upgrade would show others what a HQ member I am.

What contributions have you made to the forum?:

I've answered many questions from different people at different sections of the forum. [I did a multi-giveaway thread recently, which can be found here.](#) I also plan on contributing a lot more soon, doesn't matter if I'm upgraded or not.

Extra:

I just want to say thank you so much for this opportunity [z??k](#). I'm really thankful that I'm given this chance to be an upgraded member. If I do win, I will be using this upgrade to benefit the community. I'm applying for this contest because there was another "contest" where I won a L33T upgrade, but was never granted it. [That report can be found HERE](#). I was happy that I won that upgrade only to find out it was a fake contest. Well anyway, good luck to all those who entered.

Vouch for sinister and neil5050. Both high quality members and can't wait to see them on the upgraded side.

If you could upgrade me to staff that would be great, if not, I can settle with Ep1c.

AceVoid - August 1, 2014, 11:36 am

About Me:

Hi [z??k](#). Let me start off by telling you a bit about myself.

My name is ddniek, I'm 19 years old and I've been a member of HF since August 2011. Since I've

joined I've learned so much! Not just about general Hacking, Pentesting, Anonymity and Programming; but about grammar, how to treat other members on a forum and how to make new friends. I know I spend more time here than I should, but I enjoy it so much I can't get enough!

My Contributions to the HF community:

I've spent 90% of my time here on HF helping the newcomers, and coding useful programs for the Hacking Tools and Programs section. I post daily(not always though) large lists of fresh, working proxies in the VPN, Proxies, and Socks section. I also try to help members in the GFX section if I can, but I'm still quite new in GFX. I am always polite to every member, and have helped a lot of members that are not "newbs" as well without expecting anything in return. I believe in treating others the same way I want to be treated. I'm also busy coding version 1.3 of my Virus Toolbox which I will give out for free, and I am also almost done coding my Virus Builder V2.0

Why I would like the L33T upgrade:

Sir, I cannot explain how much this upgrade would help me to contribute more to the community. Being a non-upgraded member has its limitations, and with L33t those limitations are gone. I love helping out the community, and I believe being a L33t and having the great features that comes along with it can help me contribute more efficiently. It will enable me to post in L33T sections, thus gaining visibility, and making me a more trusted and all around recognized member. It will also enable me to +rep the HQ members so that people know if they are trustworthy or not. I would also like the access to L33T exclusive giveaways, have a bigger PM Inbox, be able to edit my post's after a day has passed and post in the Premium Sellers Section.

Something Extra I want to add:

I appreciate every upgrade contest on HF! It's amazing that there are people willing to give L33t upgrades for free to people they don't even know. Thank you for reading my entry, and good luck to all entering!

TheWholeWorldExplodes - August 1, 2014, 12:22 pm

Im applying for a l33t upgrade!

The reason i'm applying is because i want to make more of an effort to the HF community! I already spend a large percentage of my day on here and most of my efforts go towards the web hacking section! I believe I am worthy of the upgrade as I put a lot of effort into helping members out in the website hacking section and I feel i can promote my work further with tutorials and posts when i am l33t!

Thanks a lot!

c x y k - August 1, 2014, 1:44 pm

I really don't want to apply to this thread, as I believe that I'd be found needy, I wish to create a position reputation within the community, but as you're offering it, I might as well.

I doubt I will get this, I only have three rep and joined a few days ago. I guess you might like to read it.

I've been snooping around hackforums for over a year now, I'd say. I only created this account the other day, however. I like the community very much, I find it socially fascinating and fun to be here.

I'm a developer born out of passion, I wish to bring help to the community. I started my first thread last night, expanding on another's tutorial on how to create an ip-logger. I wish to create high quality tutorials, not only basic but moderate and advanced. I see many threads on hack forums offering paid services, I wish to not only offer this, but also free premium resources for the whole community.

I'm not going to lie, I'm very bad at English and my grammar is terrible. I have near to no chance of getting this, I don't want to sound cocky and amazing, so I don't want to put millions of effort showing how 'great' I think I am, that's what most people do to get things like these, in my opinion.

Anyway, back to it.

I spend all day, every day, even if not logged in, viewing hackforums. I like to skim over threads, reading what gives me a warm, cozy feeling inside.

There's many threads that I'd classify as being fun to read, also quite amusing and interesting. One of the main ones being about a man who defecated while driving his car.

I find threads like these very beneficial to the community. Some people that are classified as 'skids' or 'leeches' just like to steal others work, or assume that they're a know it all or that they're better than everybody. I know I'm not either of these, I love the community. Don't get me wrong, there's some people that aren't the nicest within hackforums, but the majority of this community is just purely amazing, like you.

Now I'm at the end of my 'application', you're probably thinking to yourself 'this person is just some skid who joined a couple of days ago and think he's better than everybody', I wouldn't be surprised if you were thinking that. Some people don't like low-leveled-rep-members such as myself being upgraded, and I see their point.

Other than having an even better warm, cozy feeling inside you knowing that people care for you, and that you're upgraded you're more trusted, I fully understand why you wouldn't want to upgrade me. If you don't wish to upgrade me, that's fine. I had fun writing this, and I'd like to thank you very much for offering myself and others the chance to get upgraded when we don't have such an amount of money that others do.

Thanks very much,
Kondax.

I would like to apply for the ub3r upgrade

I know I don't have a fancy thread like others and props to them for it, But I would just like to say I would really love to be upgraded to ub3r. I wouldn't be able to explain how much this upgrade would mean to me if you ever upgraded me. I have had that same title for about 5 or 6 months now, ever since I got accepted and would love it if it would come true. It would be one of the best times on Hackforums that could ever happen to me. I have been on Hackforums for awhile now and I actually joined because I really wanted to hack my friends computer, I was total noob. After about 2 weeks of trying to figure out how to do it I gave up, But I was welcomed with open hands on this forum and I do the same to others as best as I can. I helped some people by doing a few give away for things that I loved, I know they didn't get many replies. I did the best I could. Here they are.

I know I have 30% warning level but it was from a junk thread. I believe I deserve the ub3r upgrade because I am always on Hackforums ,and to be honest I would like to be known as a more trusted user. I was actually recently scammed about a week ago when selling csgo keys, and with that money I was going to buy ub3r, but now I can't afford it and would really enjoy having it. With this upgrade I would plan on helping other members whenever I can and attempt to do giveaways as often as possible. Thank you for doing this giveaway many people appreciate what you do!

About Me:

Well I join HF as a skid who just wanted to hack everyone. But as I matured, I learnt that my greater desire was to be as helpful as I can be. I then recently started coding about 7 months ago, and since then I've loved it, and I always try use my skills to help members. I am constantly in the coding sections (mainly vb.net and c#) trying to help members with their code.

My Contributions to HF:

I spend most of my time in the VB.NET section helping members with coding, and in some occasions I code entire projects for members for free.

Here is a compiled list of my most proudest contributions to HF.

[Free Stress Tester - 1793+ replies](#)
[Free Netflix Checker - 80+ Replies \(It's new\)](#)

[Free Coding Service](#)
[Free BTC Giveaway](#)
[Free cPanel giveaway](#)
[Free .eu domains](#)
[Free Shells](#)
[More shells giveaway](#)

Now here is a list of programs I've coded for members or the community entirely for free.

Spoiler [\(Click to View\)](#)

Although this program looks simple, it's not. It loads everything dynamically from a database at runtime. I could show u via TV if you wish.

Why I would like UB3R:

I feel like I have contributed so much to this forums, with helpful posts, programs and tutorials. It would be nice if the favour could be flipped the other way around. And me receiving uber would only motivate me to be more high quality & active around the forums. I would love to be uber :), thanks.

I'd love to use the extra pm space

Right now using the less pm space makes me feel like a poor housewife managing evrything on limited resources.

I'd like to make new friends & the green L33T would surely make that process a lot easier.

I have been decent enough to deserve it, I guess?

I have a bank account of my own but my father would see if I buy L33T for myself using that account so I can't buy it myself.

I haven't contributed much in terms of haxing skills but as HF's homepage says. Packets, punks & posts . I think I have all of them.?

Zach you rock ?

You could test me if you want to see if I'm worth it.

?

Have a nice day/night.?

CapnGoku - August 2, 2014, 3:46 am

First off, I can't really afford upgrading on a forum as I am not exactly even middle class.

Not going into details about my life but I love this forum as a whole and it has helped keeping my mind distracted from the world I live in. I have made friends here and I am going to continue to do

so. Having L33t would help me look trusted and better in terms of rep. I have been trying to generate enough money to buy an upgrade but can't seem to do so. Since this is a shared computer I can't eWhore. To be true I have not contributed to the forum as everything I find has already been posted..... I think I might not be as deserving as anyone but one thing this life has taught me is to be hopeful. Though I usually try to keep my posts light and funny I can't help but write what I want here. I just hope that someone reads this, it doesn't matter if I win.

Wired? - August 2, 2014, 10:27 am

Hello, and thank you for creating this fantastic opportunity for an upgrade. I just got approved for UB3R and I would put it to good use.

I would love to become an UB3R for a few reasons. I have contributed to the forums a good amount, I have never had any reports or discipline, and I am active.

I have contributed to the forums by trying my best to answer any questions people have if I am knowledgeable in that field. Although I haven't really created any megathreads like some of the people here, I believe helping people individually by answering their questions is just as good.

I have most recently been very active in the Webmaster section, answering any HTML & CSS questions that I know the answers to. But, I also look around other areas of the forum daily, helping people to the best of my ability. I learn new things everyday, and as I learn new things, I spread my knowledge with other people.

The biggest and most recent contribution that I've made is that I hosted a [L33T upgrade contest](#). This contest allowed for another member that I deemed worthy to be upgraded to L33T.

Some people try very hard not to get in trouble here on the forums, but it's not hard if you follow the rules and don't do anything questionable. I don't really understand how so many people get banned, but that's their issue.

I have never had any discipline given to me such as warns or bans. I've also never had any scam reports opened, or anything of the sort. Following the rules is pretty easy, and that's a big part of being a HQ user.

I am also very active on the forum. I check for new posts every day, and I try to make at least a few new posts or threads every day.

I was inactive for a few months when I first joined, but I am now more active than I have ever been. My post count has raised significantly over the past few months, due to me being very active and posting almost everyday.

I am a good candidate for this upgrade in my opinion, for the reasons stated above. I feel that I am an HQ user and if I become an UB3R, I will be able to continue that.

Thank you for this wonderful opportunity.

I have spend a lot of time on this community and will continue to spend more time. I know time is nothing as there are people who have been here for years and years and I have only been here a few months.

I have spent time helping members and doing what I can to make sure people get what they need and have what they need.

I enjoy helping people and feel that getting the upgrades that I can will benefit me as well as the forums.

Thank you for this opportunity and I hope you will find me worthy. ?

Combatant - August 2, 2014, 3:50 pm

Here is my application, best of luck to all other applicants.

A little about me; I am a college student who is studying Network Security and forensics and hopefully I will get a job in that field, whether that be civilian or possibly military. I like to browse HF in my spare time when I am not studying (college is study study study for most people). I like to be

kind and nice to everyone I come into contact with. Here is a little insight for everyone reading this; People who are nice are not weak. Most people seem to think that most people who are nice are weak and easy to manipulate (weak meaning as in easy to manipulate and easy to get anything out of them). However, that is their problem and the truth is, they aren't weak. Just because they're nice and kind, holding doors, helping old grannys across the street, etc, that does not make them weak as many think, it just makes them a better person. The worst thing you can do in my opinion is try to take advantage of a nice person because you think they're weak.

Now, enough of my ranting. Again, Zack, thank you for the opportunity to enter this giveaway for L33T. I would like to say good luck to all other applicants whom of which apply and make sure to thank Zack a lot if you're the one chosen. There aren't many people who are kind enough to do as he is doing.

First of all, I believe this upgrade is right for me due to the kind nature and maturity I try to bring to the forum. Though sometimes sarcastic, I always try my best to help others, whether it is on the forum, or in person, and even off site. While I have not posted many threads and tutorials due to college and other life implications, I soon will try my best to contribute more of my knowledge of networking security and continue to assist people.

When you're an upgraded member, you're usually associated with a "higher nature" and level of maturity (not all the time, unfortunately for some), so, I would love to be apart of the "higher class" if you will and help make a positive mark on this forum and continue to be nice and helpful throughout my time and experience on this forum.

My life rules and habits, if you will, almost always put maturity and friendliness first. Without maturity, you almost always end up looking like a fool in the eyes of others. That is not what I like, I prefer to always be liked and helpful (though some always will have a different opinion on you, but hey, that's life) and I will always try to continue to be nice, mature, and helpful to the best of my abilities and skill set. I always try to help with the more ethical things on this forum, tending to stray away from most of the unethical things, as that's just the way I am.

I will soon hopefully be posting more threads and possibly giveaways as things progress and time goes on, so be on the lookout, it may be something you could use.

Here is one post I have contributed to the forum;
<https://hackforums.net/showthread.php?tid=4209313> As I look in the Beginner Hacking section, I always saw a lot of posts asking how to change one's IP, or they're being attacked via dos or ddos and though it would be nice to add in. It doesn't have many posts, but I have recommended it to quite a few members and also sometimes offered assistance via TeamViewer to help.

Thank you again, Zack for giving myself and others the opportunity to be able to enter this giveaway and have a chance to be upgraded! It's truly a great, and kind thing for you to do, especially seeing as so many people aren't very keen on doing so.

Regards and thanks,

?

About me

Hey, I decided to join hackforums because I saw a giveaway I was very interested in, I didn't win

the giveaway, I liked the community so I decided to stay and try become a reputable member.

Why me?

I think I deserve this upgrade because I've been on HF for a long time, I've help many users, many times, I've contributed to the community upgrading to l33t and by providing some giveaways. I've tried my best to be a HQ member and to help whenever I could.

What contributions have you made?

I haven't made many contributions, but it all starts from 0, I have make a list on the ones I've done publicly on the forum, but I have also done quite a few for members via skype and PM.

Hey there, My designation is Aravind. Or Shortly just Ara.

I have joined Hackforums an year ago, I do have joined such similar forums before but I never met something like HF, so active and High quality. I have endeavored to open multiple projects, giveaways but in the cessation I give up mostly because I get ignored on my posts. I endeavor to do maximum High Quality posts, often multiple read to redress any errors so it won't cause inconvenience. I always avail when it comes to life quandaries or webmaster problems or where ever I have knowledge with.

I have joined several contests, I am a hapless person like most of them because it is predicated on random.org results. It is authentically nice to visually perceive this contest as I can open my mind and verbalize myself. For me this is a great opportunity, I am not verbally expressing I plenarily deserve it, possibly there are many out there who might just deserves it more than me, So I will not repine if I am not culled. Very thanks for hosting this contest.

-Why do I deserve this UB3R upgrade?-

First off all, I'm always trying to be as HQ as I can and never scam/troll/flame or piss anyone off. I'm member since October 2013 which is almost 1 Year now. About 3 weeks ago someone wanted to upgrade me to L33T, which turned out he was a scammer and just wanted me to wear his signature. So I upgraded myself which I'm still happy about. I could finnaly post in the L33T section and give Rep to those who deserve it and edit my posts/threads anytime.

-What contributions have I made-

I always try to stay as HQ as I can, which means that:

- I try to type as correct as possible
- Answer qeustions if I know the answers
- Not scam/troll/flame or hate/piss anyone off.
- Help everyone, which includes not upgraded members

Kogut's Upgrade Request

I've been approved for ub3r

L33t ----> Ub3r

What makes you thing i deserve Ub3r?

Well, i have been as active as i can over the past months and i always try to be HQ. I always try to help other members out, i always try to teach people what i can and, whenever i can. i love to give back to this huge community. To tell the truth, i really like this forum, and i just can't spend a day without visiting it. Besides all of this, whenever i can, i try to be the most responsive and helpfull person that i can, since i know that to fight the LQ , one must be HQ+.

What have you done for the community?

Ever since i started being more active, i started to do more and more things for the hack forum community. i have a thread that tells members how to get free btc a very easy way to ge btc. you can check that thread out here; <https://hackforums.net/showthread.php?tid=4385652> . i also have gave the community free youtube views you can check that out here; <https://hackforums.net/showthread.php?tid=4296983> and <https://hackforums.net/showthread.php?tid=4014615> . i gave people free twitter followers you can check that out here; <https://hackforums.net/showthread.php?tid=4304211> . Lots of people like the btc method as well.

I know its maybe few things, but i try my best to give back to this awesome community as much as i can. I try hard every day in order to help out people, but i can't giveaway money because atm i am not able to do that. im always thinking of ways of giving back to the community, and i wont stop now , or ever.

Final Thoughts?

i would like to Thank You from the bottom of my heart for being HQ as you are, and i would like to wish all of the entries good luck, and if you win, please wear that colour with proud :)

Kind regards, from Kogut :)

Clarkson - August 15, 2014, 11:33 am

First of all I want to thank for accepting new members. It show's how much he is dedicated to the forum and I think it's really awesome of you guys.

My application probably won't be that great but I'll still give it a try because:

"There's nothing to it, but to do it!"

Okay let's get to the fun part..

Collateral's Uber application

Who am I:

I'd rather keep my real name to myself but I'm 19 years old and from Serbia.

I'm on HF for quite a while now but I spent more than a year just lurking around and shifting from subforum to subforum.

I liked e-whoring and gave some tips here and there but because of personal stuff I stopped it aswell as took a break from HF.

After roughly half a year I came back and I really liked the Coding subforum and tried to learn as much as I can. I am on college now. I am learning HTML, CSS, JQUERY AND JAVA SCRIPT.

Why do I deserve to be Upgraded:

I think I'd deserve it because I'm friendly and I always try to be HQ and not blame anyone for mistakes.

I think that with my friendly and helpful attitude I contribute more to the community as I would with 0.10\$ Paypal Giveaways (nothing against those guys who do those giveaways, you are great!).

As I said earlier, I try to be helpful on the forum but I also sometimes check the Beginner Hacking subforum and see what new kind of stuff there is or if a Beginner needs help which I can provide.

I also sometimes (more like seldom) check by the keylogger forum to see if there are any unanswered questions. If they are there and I think that whatever the OP want's is possible to do with my knowledge I help him that instant.

Anysways I have my own HQ and CHEAP Support service:

<https://hackforums.net/showthread.php?tid=4384731>

My project so far with that service are:

Hawkeye keylogger and all Obreon Product. I hope I will be getting more customers soon.

Also I was doing great on eBay with one of my method, I have been making 50\$ a day without any work(If I did more on that I would get so much more money but I do not have time because of college).

Conclusion:I'm not the most contributing member

I don't deserve it "more than anyone else" but I think I'd deserve it to some point

I always try to be friendly and HQ

I really appreciate what you are doing for the community

I suck at applications

Thank you if you accept me and If you do not accept me It is ok because I know I am not the best here on HF and I know I have so much more to learn.

Wired? - August 15, 2014, 12:24 pm

Hey there, thanks for hosting this contest. I recently was accepted for UB3R and I can't quite afford it. I will cut to the chase and tell you the reasons why I might deserve it.

I have contributed a lot back to the community. Every day I help at least a few new people, especially in the webmaster's section. I have done some paypal giveaways a while back, but one of my most recent contributions was a L33T upgrade contest.

I am very active, I visit the site at least once a day, and I try to post at least once a day. All of my posts are packed with high quality information to try and help the users I am responding to.

As you can see, I haven't contributed any megathreads or things like other users, but I am very

helpful and active, and I think having UB3R wouldn't change that, it would just be nice to have.

Thanks for reading my entry, good luck to everyone else.

I don't think I'm much deserved to be upgraded over other guys, still I believe I've my own points, I came to this forum to study GFX and graphics,

it's my passion and dream, I helped many users as you can see from above examples, I never charged a single penny from them because

I never wanted to make money but to improve my skills and help others. I feel I deserve to be upgraded because

I can help members even more as a upgraded member, this 50 PM thing is killing me,

I get many PMs everyday from members to make custom GFX for them.

It'll be great if you could help me to get upgraded.

I'll be eternally in your debt if you could do that

Why am I looking forward to an ub3r upgrade from you. First of all I like to introduce myself, my name is Skotia. I'm currently sixteen, and majority of my time I spend it studying, online, and hackforums ever since I've been introduced to this awesome forum where I can feel like I finally "fit"

in something, be a part of something huge! I've helped out some hf members deal with malware, viruses, and all that bad stuff, I've been a member since June 2014. A friend from school referred me to this site and I've met chill people here with same interests that I thought I would never find. Learned a bunch from this website, it's taught me majority of my skid skills haha. As soon as I had enough money for l33t I bought it and was so excited! Now that ub3r is next I'm taking advantage of this awesome opportunity, I strive to always go with the opportunities.

I am fairly new to HF and this will be an incredibly rare and essential chance for me.

I have no contributions to HF whatsoever, but will definately give back a lot in the future when I learn from HF.

I never get any money to spend, so this upgrade will be a golden chance for me.

I know a lot of other users have contributed significantly more to HF than me, but I probably desire it more than most members.

The L33T upgrade will benifit me incredibly, so that I could progress faster and more efficiently.

Thank you! I hope it works out well for me and other users.

wellager - August 16, 2014, 5:17 am

Here goes.

I was recently accepted for ub3r after getting denied four times.

I can't express in words my excitement and how thrilled I was... I finally was approved for what I wanted the most on this forum. It also meant Omni saw me as a member worthy of joining a group whose members are handpicked, that's an honor which I hope I can, with your aid, be worthy and deserving of.

Why should you upgrade me to ub3r?

Well, first off, I believe that I'm a positive, active member of this community.

You see, every day a lot of people come to the Lounge and ask us questions they don't know where else they should ask them. Either because they're too new to know where to post them, or because there's no proper section to post them.

I'm saying this because a lot of people underestimate the Lounge and think it's 100% a bullshit section for trolls and kids, but I beg to differ. It's home to a lot of members who themselves interact with others in a positive way.

As a side note, I was never banned in the past, which is an achievement looking at my time spent online.

I won't bullshit you and tell you I'm the most useful member around here, but what I WILL tell you is that I've helped not only a lot of new members by giving them basic instructions - and also helping on the Rules and Announcements forum, looking at my post activity - but that I believe that I also helped Staff by reporting many rules-breaking posts. (I have ~400 posts which I reported as of now, and still rising).

I also used to give away stuff in the past. I've written multiple guides and given them away for HF members only, and I also gave back to the community by giving away some money. I'm not a rich man - which is why I'm participating in your contest -, but I do try to give to the community.

I interact with a lot of members on a daily basis, and I'd like to be able to bring in some income through HF.

Upgrading to ub3r would not only allow me to sell some usernames of mine considered cool and some of my old accounts (including TF2 items, which I believe would be valuable since I would sell at a discount price), but would also allow me to expand my reach on HF and continue helping other members. I'm getting into crypto-currency trading soon, and being ub3r would make doing this

amazingly easy, as only ub3rs can make threads in the Currency Exchange section.

This upgrade would make me, in other words, be able to make the money you spent and maybe more, and it wouldn't be wasted.

[Some of my contributions.](#) (bonus)

As I said, I'm not a rich man (which is why I chose to give the small sum of a buck to someone else), but I am a knowledgeable one. Never have I had anyone tell me "your guides suck" or "you're posting utter trash, stop it". Knowledge can be one hell of an asset if you use it correctly.

As a conclusion note, I spend a lot of time on HF. Being ub3r would enhance my HF experience and make me enjoy it even more - I think.

Thank you for reading my application. I hope I get chosen.

Spoiler ([Click to View](#)) I don't really like copy/pasting my application, but I want ub3r bad since I can finally get it and I don't have anything to lose, so why the hell not?

Motusora - August 16, 2014, 5:32 am

I would like to apply for L33t

Reason :

I've been here since 2011 but don't have enough money to upgrade my account .

i helped people here and tried hosting a "facebook account giveaway" once . :)

I really want to experience being an upgraded member since a "normal user" has limitations .

thank you for having time reading this and goodluck to everyone who entered this awesome contest !

Hey Waif,

I'm re-posting this since you allowed reconsidering. I am really sorry for my ex-scanty application :P . Thanks for reconsidering.

[img]http://x.hackforums.net/images/modern_bl/groupimages/english/l33t.png[/img]

Profile: [Click me](#)

My introduction:

I have very much told this in my ex-application but sorry if I will bore you with this.):

I joined HF a year ago, HF is my longest staying forum and the one and only forum with such High quality material. I'm 17, My goal is to become and freelance Internet Marketer someday. My fascinates mainly shrink to this cyber world. I love Photoshopping and plans to learn programming next year. I am currently a computer science student doing my second year. Right now, that's all about me.

My contribution:

I often help members with life problems or any SEO-help. I am an expert at study hacks too. I often find less threads about studies, but I surely know a lot of ways to hack your study. I am thinking

about starting a TuT about it soon.

[SEO expertise Guide](#)

[Glass effect -Photoshop tutorial](#)

[Adf.ly, Adf.oc Bypass. No download. No survey](#)

[Hack Facebook account TuT \(expired method now\)](#)

I know it really looks pretty little amount of topics, I often help in replies, the problem is (saying openly) I get ignored on my topics. I feel less exhilarated to post a new tutorial or thread. It is next to impossible to make something successful being a normal member.

Why I deserve it?

Firstly, I wouldn't say I really deserve this. I really don't want to look awful like bragging myself. But this upgrade will be a gift for my life because my interest is to become one day internet marketer. A L33T upgrade will be a blessing in the process. I can start feeling excited about posting new threads and tutorials. I currently have no way to upgrade myself to L33T really. I am sure I can extend what I can do with this package. This L33T! really can start what I dream off. Moreover, I can multiply my contribution, maybe I would be the one doing this contest next year.

What I can do with it?

I know everywhere I said I will "contribute more" which is really looks imprecise from the reader's level. No, no misinterpret, it is a fact I will contribute. See this upgrade will act as a catalyst for a chain of reactions I am planning to produce. I will possibly endeavor every way I can do to utilize this package to it's maximum potential.

Extras

My satisfaction lies not in getting positive result of this application, at least I was able to put an application to add to my experience. So whatever the result of this app is going to be, I am fully positive and thankful for the contest host, especially to give people a second chance. I adore it.

I recently join HF not too long ago. Didn't expect it to be such a good community and forum like it is. Really love this forum and participating with other members and helping each other out. I would really appreciate the upgrade and would always stay a loyal member.

All past "Apps" are denied.
I can only do one a day, or I would go broke so fuckin fast ?

Today's "apps" start now.

Furthormore, if you are Ub3r, and feel left out I'll buy you the gift award.
Just post away with a "app" on why you deserve it.

Well this is my second application for ub3r here it goes!
Kogut's Second Upgrade Request For Ub3r.

What is your favorite part about Hack Forums?

Well I first joined HackForums looking for some nice grafics and not thinking I was even going to comeback after, but I instantly fell in love with one of the nicest online communities I have ever came accross. From the get go the user base of the site was very welcoming, and showed just diversity that it was nearly impossible to leave once I entered. HF has every aspect needed to create a good forum, including very sufficient staff, helpful mentors, and very nice members. HF has had such a big impact in my life as my every day intent on HF is to further educate myself in many aspects of the internet realm that I never had before , such as hacking, RAT's, money making, black hat activities and electronics. HackForums is such a great tight knit community, that is very open to newcomers such as I was, but I have developed greatly under the wings of many open armed users. Omniscient has done a wonderful job in bringing diversity to this forum, with people ranging in different expertise from topics from Anime all the way to Blackhat hacking. Some other very unique ideas he has had that made Hackforums a very memorable site to me were his advanced ideas such as usergroups, awards, and very good layout of subforums. I feel that the awards concept is also a very cool idea, as I'm sure it makes members feel just as proud as being in usergroups, and although it is just pixels, it really gives people a positive mentality when they do get an award. Also the layout and organization of the subforums on this site are absolutely impecable. There is such a fresh and clean layout, and it is so easy to navigate through the site, that even the newest of users should surely be able to find a section on the site that interests them and leads them to staying here. I'm sure with time all this site will do is keep growing and with Omni's amazing ideas will never stop. He has also done an great job at picking some very trustworthy staff, who even though I have never met them, I would surely trust each and ever staff member with everything I have. This well constructed team surely keeps everything in line, and is one of the biggest reasons that HackForums is such as pleasant experience for nearly every user on the site. I would just like to say HF has really made a detrimental impact on my life, and I would like to be apart of this family for as long as I possibly can, and my stay will last all the way till the end.

One more section I would like to speak about which seems to bring alot of really unique people together into one group is the Innuendo section. As many "12 inchers", "incest lovers", and other types of trolls who live in the deepest abyss of the Innuendo section, every once in a while there is someone who truely does need help, and it comes upon me a very good feeling when the users of the site show a bond and give eachother compasionate words and are able to express eachothers problems. It's actually pretty touching sometimes, especially when someone is in dire need whether it be relationship, crush, or just any type of personal problem, it always seems like there are multiple different dedicated members there to help out anyone in need. That's why as many trolls there are who lurk there, the Innuendo section of Hackforums would be a "must see" reccomendation I would give to any new member to at least

check out and see for them selves. The Innuendo and freebies/giveaways section will always be one of my favourite

Things that i have done for the community.

Why do I want this upgrade?

I've been a member on the forum for quite a lot of time now, and I feel that I deserve to be upgraded to UB3R because I've done quite a lot for the community, I will do more later of course. :)

I also feel that with becoming UB3R, I feel that I gain more respect within the forum, which I think is just a bonus. Being UB3R has been my dream since I joined the forum and got to know about the different ranks.

I don't just want to get UB3R so that I can -3 the people that deserves it, but actually motivate people that I did this. I managed to get UB3R, without paying for it. And when I post in threads, I try to be as HQ as possible, I am kind to everyone, I won't be a guy just throwing -3's to people, stating that I don't like them. I would rep people fairly, I will use my mind before planting a -3, I will say to myself; "Does this guy really deserve a -3?". Nor will I give people +3's because they're my friends, I will share out my reps thoughtfully and carefully

I'd just like to say good luck to everyone! Thank you for hosting this amazing contest

Nivarka - August 16, 2014, 2:36 pm

I'd love to get the gift award. I feel that I make regular, valuable contributions to the community, and I will shortly be donating \$500 to Omni for MD status.

In all honesty, there are far more deserving people posting their applications here, and I feel inclined myself to upgrade them.

If you, however, are feeling generous and willing to gift me, I think you just about know me enough to deem my worthiness yourself.

Tomorrow - August 16, 2014, 3:00 pm

Hey Waif! I have been here on HackForums for quite a long time. A few months ago I got accepted as a Ub3r. Personally I would like to become an ub3r to get the resources to finally start having a stable online income so I eventually can get my own place to stay.

When people have questions I can answer, I usually do. I do not do any giveaways because giveaways usually have another reason than helping people and how can 10 cents help someone out? Giving knowledge helps more in my opinion.

Well, I hope you have a good picture of the reasons why I want to be an ub3r so badly, Waif. You can make that change!

Greetings,

Jason?

L33t > Ub3r

Personally, I'm sure others can use it more than myself. I have been l33t for a long time now, however that being said I would love to have Ub3r. I believe I deserve this because of my contribute to the forums as well as my passion for helping others, just as you are doing here. Here is my service that has been free to HF, where others charge \$25-50:

Thanks for reading, regards.

BobDole666 - August 16, 2014, 3:19 pm

I don't deserve it so don't choose me - I don't post enough and I don't help enough people.

Imgurian - August 16, 2014, 3:36 pm

Because I'm not a cheeky cunt and I want an upgrade

Edit: and i fucked her right in the pussy

Expels - August 16, 2014, 4:53 pm

Great drug discussions I suppose. Not gonna lie I ain't all that, and I'm not gonna bullshit to make you believe it. I'm not rich and I honestly don't wanna pay for it myself, but if I deserve it why not let someone give me what's right :P

Good luck to all I suppose wish meh luck!

Legends - August 16, 2014, 7:34 pm

I usually help out in the webmaster section whenever I can and that's most of what I do. I mostly come to HF to learn than to teach. Giving me l33t would let me access the political forum which I've been wanting to post to.

Bagon - August 16, 2014, 8:21 pm

I'm here to beg for:

[img]http://x.hackforums.net/images/modern_pl/groupimages/english/l33t.png[/img]

Why should be considered?

No bullshit, I made my account and was inactive for a long time. I joined to leech, unfortunately. But I have converted into a member of the community. I'm no huge poster, I prefer to read and browse, but I do occasionally stop and leave my opinions on topics. I'm on here every day to browse around and see what is new and what other members are up to, having access to more forums and more features can only make my experience here more enjoyable. I would also like to be able to +1 other useful members which I can't do now. I would buy it for myself, but I'm not the best off person and I'm only 15, so getting a job is sort of rough. I would certainly appreciate being upgraded, I know my "submission" isn't a book or extremely in depth, but I don't want to flood you with info you can easily find by looking at my profile.

If you pick me or not, you're contributing to the community massively, great work. ?

Majinferno - August 16, 2014, 8:49 pm

My names Majinferno. I joined awhile back in 2012, but wasn't as active as I'm currently am. To be honest, at that time I was just trying not to get fucked by people and kinda just kept to my self on HF. However, for the past year I've had an increase an activity as I explored the forum and got to know some people better. I'm not going to drone on how I will help the forum or anything that will put

me in this ultra good light. You were a normal user at one time and you knew when you were ready to take that next step and upgrade. I feel that I'm ready to take the Title of L33t along with the many responsibilities that come with it. If my current work on HF is enough and you think I'm ready for the upgrade, then I'll be more than happy to accept. I appreciate you coming out here and giving members a chance to be upgraded. People such as my self do not come into money often, so the helping hand you give is really a warm welcome. I hope I didn't drag this out to much, but I'm sure you get the picture.

Take care.

?I??? - August 16, 2014, 8:56 pm

Hello There,

My name is Ofwgkta00 I have been here for about 7 month and Wow! It has been a great Adventure! I think I deserve this upgrade because from the start I have always liked HF and I wanted to make some money to upgrade my self to l33t I have never got the chance too. But if you hopefully upgrade me it will make my day. With L33t I will have much more responsibility as I'm upgraded and I can be more mindful of others. Don't get me wrong but I have helped everyone on HF to the max as what I know I have been giving people stuff helping there and much more! During my experience on HF I have learnt so much in 7 month amazing! I used to not know anything about Hacking, cracking and much more. If I get upgraded I will not take it for granted and I will enjoy each second on my HF career.

Thanks for hosting this giveaway Op.

Gonzalez™ - August 16, 2014, 11:50 pm

Hi! I'm Gonzalez! I'd like to try to enter to win a ub3r upgrade as I've been accepted for a while and don't have the money to buy the upgrade. I think I should win this as I'm trying to give back to the community more by helping those that are suffering from Anxiety which is a mental illness and causes depression. I'm trying to become a little "noticeable" so I can help spread the word about how anxiety is a serious issue that people face everyday. It's sad to see those that need help not get it. My thread is [here](#) I do hope you check it out and let people know who have anxiety issues that they're not alone :)

That is why I believe I deserve the upgrade, But I am totally fine with whoever you choose to be the one to be upgraded. Thanks for the contest mate! :)

Encoded' - August 17, 2014, 1:46 am

I would like to enter this. I am l33t and I would like to become ub3r. I deserve ub3r because I'm always trying to be HQ and I have given something back to the community. If I am ub3r, I could sure become more known and trusted and I would also contribute more to the community.

I wish everyone good luck and a great day! ?
