Thread: [650,000 Page Views Per Day](#)

Omniscient - May 23, 2010, 12:01 pm

Just looking over stats. While I knew we were doing nearly 20,000,000 page view per month I never really calculated this on a per day per minute basis.

These stats are straight up PHP pages as they are the only ones with Google Analytics on them.

650,000 per day
27,083 per hour
452 per minute
8 per second

And yes those stats are accurate and considering this doesn't count the Vuwin CSS/JS server or the IMG server I gotta say that's pretty huge. For those with their own sites feel free to compare.

MagicSpeed - May 23, 2010, 12:03 pm

That's excellent... keep it up Omni.

Los Pollos - May 23, 2010, 12:03 pm

Damn, that's amazing gj omni :D

Why? Just why? It's like your asking a man to take his dick out and compare it to a horse. Some mad stats though, congrats.

dark - May 23, 2010, 12:04 pm

wow... its just insane numbers ya got. Good job 8)

BTW omni is surely eating the fruit of his work!

Detective RooTz - May 23, 2010, 12:16 pm

Let me throw this in there.

How the hell would we compare. Your site and our sites would be a different number. I get about 1 page view per sec. 100 a hour. probably 200 a hour.

KoG Khaos - May 23, 2010, 12:18 pm

That is definitely something to be proud of! As we expand those numbers will keep growing. I am glad to see that we have so many people dedicated to the forum.

Zankza - May 23, 2010, 12:18 pm

Good! So site can keep growing! Everyday I see more increased members, and features. KEEP THEM COMING!

1 million per day is probably your milestone :P

Tousie - May 23, 2010, 12:19 pm

Fuck, How much are you making? 0_0

-Hyperion - May 23, 2010, 12:20 pm

lol he prob not as site sold but those stats are awesome what is our alexa ranking?

What? Nowhere near that. Under your stats I'd be making about \$250,000 a month. lol. What I earn won't be disclosed but breaking it down into an hourly rate for the work I do makes the income less impressive.

And this site gets about 500,000 unique visitors per month.

I think we'll be in Alexa 5k range in a month. If warez-bb can get into top 1000 then I think it's possible that we can too. Not saying it will be easy but I do think it's obtainable at this point. The site growth hasn't slowed. Appears we double in size every 4-6 months.

One month ago you were at around #7,100. Your decreasing ranking astounds me every day.

anyway i would say about 5k real profit goes to Omni, but considering he has to pay 1k for servers, and some other things.(staff payment too remember)

Hide_My_Ass - May 23, 2010, 12:49 pm

If hackforums was a country we would be 4th most populated right after China, India, and Facebook.

Dude.. you have said 2 things that are false in this thread already. Staff do not get paid. Perhaps Admin's but Staff, no.

Omniscient - May 23, 2010, 1:00 pm

Staff are going to be getting paid shortly (starting June) a small salary.

Ace Boogie - May 23, 2010, 1:41 pm

This is getting bad for Omni now, look at his reputation. People are just -Repping him and +Repping just so that Omni could stay in 666. That is sort of reputation abuse, just leave Omni alone guys come on.. atleast once.
