Thread: [\[The Brotherhood\]\[FREE\] Guide to make cash on your jailbroken iDevice!](#)

Kung Fu Kenny - August 1, 2014, 11:39 am

Hello guys,

I'd like to share a simple (noob friendly) method for making money on any iOS device. All you need is the Perk TV app, a jailbroken device, and time to let it run. Perk TV is an app that lets you get points for watching videos/trailers. Points can be used for a lot of gift cards and paypal. I'm not sure if this is US only or not.

What you need:

Perk TV app

FastForward (cydia app)

Relatively fast internet

Run app while charging device (or whenever you want)

Method:

Sign up for Perk on their website.

- (Referral Code: pm me if you are feeling nice :)) Use this when you sign up on the app. This gives us both points. If you sign up on their website, you can use any email instead of having to use your facebook login when you sign up through the app.

- Or you can just sign up on the app without a referral.

Open FastForward app and make sure the Perk TV app is enabled. In the settings, set the playback rate higher. I use 30, but you'll have to play with this setting based on what your internet speed can handle(how fast it can load videos).

Open Perk TV and sign in with your account. When you play the videos, they will play at at least 6 times the speed and they will automatically cycle through all the videos and then start over. The amount of time you leave it running, will determine how much money you make. You get 4 points for every 2 videos you watch.

Insomnia will allow you to lock the screen without having the internet cut off on the app, so it can play through the night.

Happy money making! ??

How much could I earn in an hour using this method in gift cards? I would like to know if it's worth jailbreaking my device :)

In an hour not too much but run it while you sleep and easily make \$5 and plus jailbreaking is worth all the customization

Works, but sometimes I'm getting an alert that says "these videos were watched too quickly", any way around that?

Edit: This only happens when I skip the interval between videos, was going to use an auto touch script for it but it seems to catch you.

If it stops due to the warning lower it by about 5

I tried this and didn't really make anything, you can only make a few dollars a day.

I can't tell how many points I have, when I go to check it just keeps loading :/

Pi-ka - August 2, 2014, 2:50 pm

Method works fine ... but I can't receive points in my country [GERMANY].

So it's probably USA only :(Damn it ... I would be able to run it 24/7 ...

works with proxy ... not so fast, but I'll let it run for a bit and update my post :D

If the ff app isn't on your springboard, try respringing once or twice.

Yeah, 15 seems to be optimal, although I think I'm using 13 just to be safe. The more consecutive videos watched is faster I think...

Oh wow, I'm also using 13:p

I found that if you leave your phone unlocked, it has less chance for that alert.

Edit, above seems to be the solution. Works flawlessly. Jumped from 118 to 236 in 27 minutes.

Hmm. Does your family play bideogames or use the computer a lot because that can cause it to slow down etc beause it uses up a decent amount of your internet. And if you have multiple apple devices you can use a vpn for each one but make sure to not use your main one the referer of the

How long would it take if I left my iPad running to earn \$5?

Chances are, the cost of electricity would end up making you lose money here.

I've done some math if anyone is interested,

Every video is 2 Points, you get 4 points every other two videos you watch as I've noticed ..

In 8 hours of running it on 30 ish fastforward speed I gained around 1000 points which is 500 videos..

To get 100,000 points you would need to watch 50,000 videos. Which would take .. 80,000 hours which is 3333 days ... running it 24/7

cookiesme123 - December 26, 2014, 2:31 pm

It has been working fine for the last day, however today after about 50 or so points are collected the screen goes black and I have to manually shut off the app and restart it. Any thoughts on how to stop this?

Just want to say thanks for this method. Will have made 15\$ in amazon gift cards by friday. Could probably make more, but setting the fastforward to a slower speed allows me to play games at the same time, so kudos.

Also, just to let everyone know, perk is aware of fastforward, so it probably wold not be a good idea to set fastforward to like 100x, because they would probably detected it.

I was reading the reddit for perk, and apparently you can have up to 5 devices running perktv at the same time on the same account. If you used fastforward on all 5, i'de suspect you could get a lot of points VERY quickly, however I would be careful, seeing how some people have gotten banned for the over-use of fastforward on multiple devices.

tl;dr : this method is awesome, just dont over do it on fastforward.

After jailbroken and using fastforward I made around 12 bucks a day(wouldve been more if it werent for freezing and the "are you still watching"). Now with school and the "are you still watching" thing appearing around every 1-hours, I make around 5-8 dollars(could make more if i use my VNC to control phones from school). So in the 2 weeks I've been doing this I've made around \$150.

So in the 2 weeks I've been doing this I've made around \$150.

I've been looking into this and for me, I view the movie trailers. It seems to stop less with movie trailers on

Good earnings, glad to see its working for you all.

Devine - January 15, 2015, 4:18 am

i was going to try this on bluestack but i heard they can detect that now? is there any conformation on this?

bartkramer - January 15, 2015, 12:13 pm

Is there a tweak that will make the app think I'm in the us? I can't find iOS8 compatible ones.

cevadar - January 15, 2015, 4:01 pm

Ive got a feeling something will patch this.

Nope. They are aware of this, they make money regardless so they arent losing anything by us using this.

Lol didnt know sharing a public method that wasnt on HF yet was against your policy. Lol..

And I have never used either of those sites.

Ban - January 16, 2015, 12:20 am

Lol, I'm nearly at 10 bucks using just my iTouch. Not bad for just leaving it on.

Glad to see you are making some \$, unfortunately I am unable to use this method as I dont have a jailbroken idevice, but good job :)

Skyrise - January 16, 2015, 11:05 am

Trying this out now, I will let you know how this turns out!

Le Douche - January 16, 2015, 3:05 pm

Does anyone know if I can get this on iOS 5.1.1?

I make more off PPD but a little extra on the side doesn't hurt. :P

AGoodPasswordIsThisLong - January 17, 2015, 2:33 pm

I timed my the average time it took for me to get 4 points, and used math to figure out that about every 10 hours gives me the \$5 Paypal reward. I might be able to improve the time, but the internet is the main problem. Still, great method!

theoneman - January 19, 2015, 2:46 am

iv just seen this tut. would it be possible for me to set this up on 20+ ipods?

or will it not allow it due to all on same ip etc?

cheers

Fajerfox - January 19, 2015, 9:38 am

Thanks for that method bro. I can try it!

lol im gonna say probably over 10 devices would get detected and probably banned, but by all means test it out for the rest of us :}

iTzNiiBz - January 20, 2015, 9:27 pm

Commenting on this so I can try it later on when I am bothered to jailbreak my iPod. Is there any proof of payment recieved from them?

adambaidya6 - January 20, 2015, 11:06 pm

Im jailbroken and will try this method out thanks op :)

ediblefruit - January 21, 2015, 12:22 am

Used to be a very good method before Perk brought in the 'are you still watching' pop up. Now you can only make pennies.

Not true at all. I keep the app running quite a lot but I keep it near me, so on the side of my laptop while I browse or what have you. If I see the pop up come up out of the corner of my eye, I click it. Simple as that.

Realizm - January 21, 2015, 6:55 am

I have about 5 different iDevices from my iPhone 3-6 and my iPad that I'll try using this all on to get me some Apple Beas gift cards hahaha. Thanks for the share OP ?

Too bad it'll take like a week to earn enough for a decent gift card though.

Acorns - January 21, 2015, 9:02 am

Couldn't get mine to work, didn't seem to be gaining any points, any help much appreciated!

Won't necessarily take a long time, have them near you when you are doing something so you can click the pop up, also the amount you earn depends on your internet etc, easily can make you \$5/night

Yeah by decent I mean the \$50 gift cards. So a week to earn one of those is fairly generous if you run this at night only. However I just bought two new iPhone 6's today so I now have 7 iDevices that will be running this for Paypal gift cards Imfao. And the best part... 6 of the devices will run 24/7 ;)

Casually bought 2 iPhone 6's xD anyway, yeah 6 devices running 24/7 should do it xD

goldencomputer - January 22, 2015, 3:05 am

This is amazing lol. I knew my 2nd I phone 5s was gonna come in handy one day running both at a rate of 50 God speed lol. I'm going to try to eliminate the popup and the 8 second waiting time in Flex.

2002 - January 22, 2015, 1:41 pm

Going to be trying this, thanks for posting :)

ttyler333 - January 22, 2015, 9:43 pm

I am earning about \$1 hour off of 3 devices.

It will always be worth it since it doesnt cost you anything. Do not complain about free stuff.... Especially free money.

nothingisreal - January 25, 2015, 2:55 pm

i mightve gotten banned but now when i try to get a reward it says i have to complete account verification to proceed, weird

ttyler333 - January 25, 2015, 7:19 pm

I have been using ios devices but i got 1 android phone and for some reason it's only bringing i 1 point per video whereas the ios devices bring in 4 points.

Ricky? - January 25, 2015, 7:54 pm

I might do this, how much money do you make over night with your rate of speed?

s3ctr0 - January 26, 2015, 2:38 am

Don't know if this still works, they probably already fixed it. But thanks anyway

24Karat - January 26, 2015, 5:29 am

Unfortunately, this is not available in my country. Great tutorial though.

It still works, but it isn't very efficient and it takes some time. I ran it over night and somehow only made 308 coins.

Kung Fu Kenny - January 26, 2015, 10:37 am

I do not understand the complaining, either way it is still free money no matter what they change smh.....

one100gs - January 28, 2015, 6:38 pm

I'm really sad how FastForward isn't compatible with iOS 7 =

ttyler333 - February 1, 2015, 5:47 pm

If you have automatic updating set for ios.. Best disable it or else fastforward is useless.

My app updated to Perk TV 2.2.0 and won't run fastforward anymore on the Iphone 6 Plus

You can easily downgrade apps if you are jailbroken

shitstain2 - February 4, 2015, 5:28 pm

Thanks for this. Trying it out now. Anyone been able to use your pc to run the perk videos at the same time?

xSecrecy - February 4, 2015, 6:39 pm

This method seems really interesting , I'm gonna try this !

powerbladez - February 6, 2015, 11:08 pm

Commenting for later. Thanks for this.

fenomeno96 - February 7, 2015, 1:43 am

shieeeeet!!!! unfortunately my internet connection sucks.. :/

Rick Sanchez. - February 7, 2015, 2:52 am

Is this going to work on a Iphone 3GS?

Going to try it out.

Can't we redeem what we earned in \$\$\$ to paypal?

edit:

"Sorry !! No rewards for your country. "

means i'm fked , right? :D

edit2:

I got an iphone 3gs (jailbroken) + Samsung galaxy young 5360

if anyone knows any good use for these(preferably money making ones) please shoot me a PM!
thanks

Kami06 - February 14, 2015, 7:45 am

It needs alot of time to get that.

But still nice thread bro.

MANIDDEEPkumar1 - February 14, 2015, 9:15 am

i think it will work i will try it thanks in advance bro

Syndicate syllabus - February 27, 2015, 4:41 pm

Doesn't work anymore, I cashed out once and they other 6 times they have refused and banned my account. This is very saturated now. They even have it in there terms now. So it's a waste of time. They end up pending your points.
