Thread: [\[#001\] DownloadProgress to Progressbar](#)

CYNTEX - August 2, 2014, 11:18 am

Hey Guys ?

Today i will post my Tutorial how to show the download Progress on a Progressbar ?

Screenshoot

Note

I hope you like it ?

Pretzels - August 2, 2014, 11:21 am

I recommend you add a virus scan to this (even though it is the source), and maybe a GIF showing how it works.

Virustotal Added ?

Thanks

Save your time downloading shit, Here.

[Virus Scan of exe, Seems to be safe.](#)

PHP Code

```
<?php
```

```
Imports System.Net
```

```
Public Class TuT_1
```

```
    Dim WithEvents WC As New WebClient
```

```
    Private Sub TuT_1_Load(sender As Object, e As EventArgs) Handles MyBase.Load
```

```
        WC.DownloadFileAsync(New Uri("DownloadLink"), "Path")
```

```
    End Sub
```

```
    Private Sub WC_DownloadProgressChanged(ByVal sender As Object, ByVal e As  
DownloadProgressChangedEventArgs) Handles WC.DownloadProgressChanged
```

```
        DownloadProgress.Value = e.ProgressPercentage
```

```
        DownloadProgressText.Text = "Progress:" & e.ProgressPercentage & "%" & "(" & e.  
BytesReceived & "/" & e.TotalBytesToReceive & ")"
```

```
    End Sub
```

End Class

P.s. OP this is NOT a tutorial, It's a source.

You explained nothing.

Geekie - *August 2, 2014, 4:33 pm*

ZOMG, THIS IS THE BEST TUTORIAL OP.... IT TOOK ME POINT 4 SECS TO DO THIS... YOU'RE SO AWESOME....

NOTTTTTT
