website: https://www.facebook.com/DoritosMX?sk=app_450974005045494

steps:

1) Make a facebook account or use an existing facebook account

2) Visit: https://www.facebook.com/DoritosMX?sk=app_450974005045494

3) Press the like button

4) Press "Juega Ya"

5) The point of the game is to get 3 of the "Xbox Live" slots to line up if you it will ask you a random question and all you need to do is to copy and paste it to google and it would have the answer for you.

-you only get 3 chances to press "Juega Ya" after that you need to come back tomorrow or make a new facebook account. Personally it took me 2 accounts to get my first code.

Enjoy your free codes, by the way you don't need a proxy for this so go ahead and get your codes while you can.

if your having any troubles with this feel free to pm me.

Message me the question with the choices if you can't answer it

Please Post the question you guys have had!!!!!!

It took me 33 attempts to finally get my first code. I have 6 accounts did those 6 in the first day the next day I wasn't on and didn't have the time then today on my 5th account last spin I finally won. I'm wondering the chances of winning because 33 seems very unlikely. I am used to very very bad luck though on online games that nobody else seems to even come close to mine overall.

Took me 33 spins for my first code and I just did 7 accounts 3 spins each and not 1 single code. I must be omega unlucky or the chances are not very good.

ohKJS - August 24, 2014, 12:44 am

So reading this made me want to figure it out, and I did :D

but I've run into another problem, even after applying the inspect element trick and answering the question correctly (even though i failed the roll lol) I was told to come back tomorrow (in the space the code appears in)

So leads me to think 1 of 3 things is happening atm

1. Out of codes (for now?)
2. There is more to this inspect element "trick"
3. I didn't wait 24 hours since my last roll on any account so that could be why? (Going to make a new account and try again to be sure now)

WDIT: New account had same results

Spoofed - August 25, 2014, 12:57 pm

Took me 33 spins for my first code and just got my 2nd code on my 30th spin.

And it took me 8 spins for my 3rd code so overall so far I have used 71 spins and gotten 3 wins so far.

I'm still trying to figure out a way to bypass and make them automatically give you a code. without having to answer any question

Spoofed - August 26, 2014, 12:01 am

OK so far I have gotten 4 codes my first code took 33 spins my 2nd code took 30 spins my 3rd took 8 and my 4th took 27 spins. Good thing I have 8 accounts going or else I would barely be getting any codes. Overall I'm at 102 spins and 4 codes so I avg a code around 25 and little over spins. I'm

wondering if this is just me or what since I have not seen anybody go into very high detail about getting the amount of spins I have before each code.

I'm not sure if its my internet or what but I'm unable to load the page. Everything else is working fine for me other sites and all.

This webpage is not available

Opera could not load the webpage because apps.pepmx.com took too long to respond. The website may be down, or you may be experiencing issues with your internet connection.

I already tried resetting everything and doing multiple things changing my IP using different browsers and other things.

I'm able to access facebook just fine the Timeline on the page about and photos just not the Xbox live part.

It shows you how to win XBLive every time. It is working.

You basically edit the java script to get 3x xbox live.

That method doesn't work, man. The only people that say it works are ones that just happen to win when they try. It isn't because of the code, it is because they just got lucky lol
