As an introductory rate for this new section stickies will be \$15 per week or 4 weeks for \$50. This is a limited time offer.

PM me for approval and details.

Thank you.

Cherry Pop - August 3, 2014, 7:21 pm

Oh that is awesome. I'm sure a lot of people would be interested.

xploD - August 3, 2014, 9:16 pm

A lot of people will probably jump on this opportunity.

Billie Joe - August 3, 2014, 9:17 pm

Good idea. People should jump on this.

Jason™ - August 3, 2014, 9:17 pm

This is a nice opportunity, a ton of people will probably jump for this.

Skorp - August 3, 2014, 9:27 pm

Wow! This is something Omniscient does not do.... very rare... like settle down man. Great prices indeed.

420 Blaze It - August 4, 2014, 1:57 am

Nice prices, once I get settled up here, I might purchase.

Regulus - August 4, 2014, 2:00 am

Awesome bud, really great prices hehe :)

Helipads - August 4, 2014, 8:42 am

Will this section contain sales for DoXing services, etc.?

KOOMZ - August 4, 2014, 8:44 am

Good idea but the thread name kind of made me think about something else until I saw it was your name..

Hulk - August 4, 2014, 9:11 am

Thanks a lot for the new section, was actually searching for it for a while.

This is normally something I'll do to spark paid stickies in a new unproven section.

Machiavellian101 - August 4, 2014, 5:52 pm

This is an awesome section. I was thinking about suggesting something like this before but someone beat me to it dam!

Talu - August 5, 2014, 12:49 am

This is a great opportunity that people should take advantage of.

'Psyduck - August 6, 2014, 5:45 am

Omniscient: I kind of find 50\$ for 4 weeks kind of expensive, what is the pricetag of a sticky normally?

Good idea though.

Th3PonyWizard - August 6, 2014, 2:32 pm

In my opinion it sort of looks like you basically created an entire section to get another place for people to shove stickies into.

I completely disagree, anonymity applies to everyone on the web, not just people who do hack related things. People need to be more aware of what kind of information they put online and how to prevent it from getting into the wrong hands. I think this section is a brilliant idea.

Really, all you need to do is revamp it a little bit, have it more around information rather than staying off the light. As to answer your question: THEY USE COMMON SENSE. No, for real, I can TL;DR every single tutorial about staying anonymoose in this section as "Don't use real info, buy with BTC, roll with a VPN". There's nothing innovative, new,or challenging about wiping your digital ass. As for the other usage of this section; DoX help begging, I just see it as another HF-made failure to support everything wrong in a section(Beginner Hacking. Hacking != Making tables of your boyfriend's steam accounts) I'm working years to recover.

That is one thing I expected to happen. Influx of "Help me dox" "best dox sites" "dox this skype" etc.

XeX Menu - August 7, 2014, 10:45 am

Aye Omni got them stickies for the low, better jump on it while you can!

As far as I know, Omni doesn't really care if we're skids. Ofc he wants the community to thrive and be happy whilst skilled. However, this is his business and if a new section has been requested featuring a heavily spoken about topic, and he can make money out of it, then why the fuck not right? ?

Although, I'm surprised he hasn't put in the rules about there being no requests for doxing.

Omniscient - August 7, 2014, 4:07 pm

VPN, Proxies, and Socks is more for technical computing aspects. PIM is more for the social aspects and also includes investigation methods which the VPN, Proxies, and Socks does not.

Quote: In my opinion it sort of looks like you basically created an entire section to get another place for people to shove stickies into.

It's not the direct reason but it's part of the equation. Realistically there are already paid stickies by members which would be more suited to this section. Members are already selling ebooks and services relate to PIM.

And as you can see from the first page of this forum it's already a fairly active section with many relative threads.

Newbie.NuNu - August 12, 2014, 9:26 pm

What in the world are stickies????! mao

rorodu83 - November 2, 2014, 4:36 am
