Note -

- 1) This is my Forth Theme... written while learning so it may have bugs...
- 2) Theme is coded without Themebase...
- 3) Constructive Criticism & Suggestions are always welcome...
- 4) Please leave comments for encouragement... ;)
- 5) Will add more controls if you find it useful & need arises... ;)

6) Credits to "Aeonhack" for Roundrect function...

7) Theme container idea taken from Mephobia's Perplex Theme

Thanks for your encouraging words... I am trying hard to make better looking themes...

Oh wow! A new looking, non generic design. I really like it, and specially the way you did the header. Keep practicing and always be creative with your design ideas.

Great job.

I don't like the seperators or the top bar on the main form. I do however appreciate the fact that you're trying something outside the box. Nice to see some creativity once in a while.

The rest of the controls all look very nice so good job!

GenericSkid - August 4, 2014, 11:28 am

Reminds me a lot of the perplex theme, just with a few darker variations. It has a few areas that could be given more detail (embossing, gradients, etc) but it's still nice as-is.

Edit: I can't read. Perplex was already mentioned. Oh well...

Already mentioned about Perplex theme in OP... already used gradients on Header & buttons (will try gradients look better)... Will look into embossing... Thanks for tip...

I like the theme. Love how he did the form control button. and the header and icon. That something new. Keep up the good work on the outstanding themes.. But I would say it would look better blue/white with some gradients in it. Not saying the colors are bad..

very good theme , thanks man

My Computer - March 6, 2016, 3:40 am

Well, the theme is unique like the name states. ?

Good job on making this OP, I am sure some people might use this.

I would say this theme is good but could be better

Rosey Mutiny - May 29, 2016, 12:59 am

Definitely unique compared to most stuff that I've seen. Good job!

Mew? - May 29, 2016, 1:41 am

Pretty clean theme I like that you added the top right controls to close out the form alot of themes on HF do not include that.
