Thread: [Halo Reach & Halo 3 Gameplay Videos](#)

**Florist** - August 4, 2014, 3:28 pm

Can you guys tell me what you think please :)

Is this something I should do? Is the format good?

I'd like to know as I have a bagillion gameplays.

2nd

I enjoyed it. It would be cool to see the other POV in the top corner, and also the text at the start could be better. I could do a nice one in photoshop if you want? or even a simple intro if I have the time :)

**Monk is TBSA** - August 4, 2014, 7:17 pm

Exactly what Sidewalk said. The text in the top left at the beginning looked like something out of the 80s or something and didn't look very professional. And I know since it's old gameplay it's most likely not possible anymore, but if you could get your teammates POV next time instead of your 3rd person, it would be a lot cooler.

Otherwise pretty good gameplay

So I've made another and feedback would again be appreciated guys

I'll say the text is better now that you fixed it up. Looks professional. Great video man.

**Hustla** - August 7, 2014, 3:23 am

I enjoyed watching the second video. Some very nice gameplay.

**Latina Girl** - August 7, 2014, 9:42 pm

The second one was great. Your DMR skill is pretty solid and seemed like you had some good teamwork. You were tearing it up with that Concussion Rifle. I think that's what it's called.

**Florist** - August 8, 2014, 11:53 am

I am uploading another gameplay right now, my apologies for doing the same map in a row :) I'll make something more interesting next time. I am very interested regarding this gameplay however, please compare it to the second one and tell me whether the mini cam is improved (it moves now instead of simply being a 3rd person view of the player) and is also larger and takes up more room. Even comment if the minicam is worse than a simple gameplay and if it should be removed.

**James Dean** - August 8, 2014, 11:54 am

I agree, i enjoyed watching the second gameplay. I haven't watched halo reach stuff in forever.

Do you mean as in the first was not good? What specifically is wrong with it that I can improve? :)

Here is the newest video, still processing but should be up soon :)

Honestly, I only watched the second one so far lmao xD I viewed it first since everyone else was talking about it. I'll watch the other now and let you know :)

Let me know what you guys think of the new video :)

**Latina Girl** - August 8, 2014, 11:45 pm

Florist, you seem like a chill dude and a great player. Feel free to continue uploading gameplay and sharing. I always enjoy watching Halo.

Here's my other channel if you want to watch any of them :)

I have some different maps so anyone who actually watches wont get bored of the same map lol. Apparently I used to be really good with the grenade launcher...

Anywho I finally got round to my first H3 gameplay :)

Let me know if you'd prefer H3 or Reach.

**ItsFluffy** - August 10, 2014, 6:35 pm

yeah not bad

its been quite awhile since i played reach but the quality of the vid was really good

Some nice sniping in this gameplay :)

**ItsFluffy** - August 12, 2014, 6:50 am

Good sniping, not the best overall but you won and were stable and that's all that matters in the end  
It's weird watching Reach gameplay for me though

**Florist** - August 12, 2014, 7:51 pm

Here is a sword base gameplay, as bad as the map is it is made up for by awesome grenade launching.

**MaZe.** - August 12, 2014, 7:55 pm

I think with a nice overlay the format would look much better.

I personally don't link the 3th person view on the top.

It's cool to see that third person because it's interesting to see what's going on around you like how the bullet are hitting you. Like in the beginning, that rocket hit the wall there and it got you when I thought it hit the floor. Great gameplay man. Fun to watch it.

Do you prefer it when it cycles through players or remains a 3rd person view?

**Florist** - August 22, 2014, 9:57 am

I will be making a few more videos soon, regardless of how little interest these kinds of interests generate. I'd appreciate any feedback for when I really get going with this channel :)

P.S I Now make halo lol :))))

Sorry for the late reply. I like the 3rd person the whole time, but maybe switch it up on different videos. Maybe one video, use the box up there and the next, try something different. I do like the 3rd person deal. It's really cool to see.

Everyone has their own opinions though.

**VIRUS** - *April 29, 2015, 6:02 am*

i like your videos theyre really good. i play halo reach also and just became eclipse rank :)

**Generative Principle** - *April 30, 2015, 3:33 am*

Some of the worst aim I ever seen on youtube.
