Thread: [Letting go of my PRIVATE, precious money-making method - Most unique method, and free](#)

splunk - August 4, 2014, 3:47 pm

Words can't describe how sad I am to let this go. The truth of the matter is, I'm done with this.

I am hoping this will be the next big hit of HackForums, just like e-whoring. We will call this gossipfaking. That will be the official name of this method.

I've moved on to bigger, and more profitable things, and want NOTHING to do with it. I'm not even interested in selling the method. I hate selling methods, and I think it's slimy. It would just get leaked over at leak sx anyways, fuck that.

I am confident this will end your search of moneymaking methods.

Long story short, I've used this method for QUITE some time, and it's truly revolutionary, made me over 3000\$ which wasn't bad for a 17 year old. You guys will fucking love it, and I'm sure there will be lots of talk about this method.

CURRENTLY, it is not saturated, and no one does this method. I sold it a while back for 100\$ a copy, but only had 3 buyers. So unless those guys leaked my shit, it's still completely unsaturated.

Here's an info thread about the method <https://hackforums.net/showthread.php?tid=4256626>

I mean it when I tell you guys, this is the NEXT big thing. Have fun. All I require is feedback, and your success stories :)

fuck it, I'll just post it.

Thank you. Like I said, I'm not a bullshitter. I didn't take a guide, and rewrite and resell. I'm not a bitch like that.

This is something I discovered when I was brainstorming while walking through a supermarket one day. I was walking through the checkout lane, saw a magazine, and it all clicked.

This is no-where to be found. I'm the maestro, and I'll be launching a support thread soon. This could be bigger than ewhoring.

Seagulls - August 4, 2014, 5:36 pm

Haha, very smart. I've had a little think of what I can send to them, i'm gonna work on it tomorrow and use some social engineering to get myself some \$\$

LittleBobbyTables - August 4, 2014, 5:42 pm

I've personally thought of methods like this (not necessarily tips to TMZ and the like), but I never fully thought out how it would work. Glad to see someone went through with it being completely done!

SpaceKase - August 4, 2014, 5:46 pm

Interesting method, thanks for sharing this with the public.
It's gonna become saturated quickly on those gossip networks though.

Aquilaane - August 4, 2014, 5:53 pm

Social engineering is not allowed to be discussed on HF.

vRewind - August 4, 2014, 6:24 pm

Thanks OP. I was actually considering on buying this method earlier this week and I see this. How lucky :P but thanks

Kaspersky - August 4, 2014, 7:01 pm

This method is actually legit, probably not even used, but I'm not so good with social engineering but maybe I'll give it a try sometime!

splunk - August 4, 2014, 7:28 pm

Hahahaha, holy fuck! 510 downloads (and counting)! I didn't think that many people downloaded it, considering there's like no replies.

Matt Bomer ?? - August 4, 2014, 8:13 pm

Smart, completely unsaturated method, good luck in the future, @OP.

splunk - August 4, 2014, 8:17 pm

By the way, I have 4-5 other methods, just like this, in which I have found myself. Not even BASED off of other methods. Everything will be free too. I really think you guys can make some good coin off of these.

xploD - August 4, 2014, 8:31 pm

Ginsum - August 5, 2014, 8:11 pm

I messaged you on Skype, Method seems great!

splunk - August 10, 2014, 8:33 pm

Please post if you have had success with this, and post the stories you've used! It's just like ewhoring, don't reveal your sources. If you're hitting, keep hitting it ?
