Thread: [Self-Made's E-Whoring Help Desk // All Newbies Welcome](#)

Self-Made - August 6, 2014, 2:26 pm

I am not the best at E-Whoring, but I am willing to show you how to get started. I will help you with things such as talking to customers, what websites to use, and finding things like VCWs. If you add me on skype could you please say you came there from the E-Whore help desk.

Add my skype: OnlineMonetizer

Minato Namikaze - August 6, 2014, 2:38 pm

HELLFIRE. - September 6, 2014, 3:54 pm

hey there! thanks a tonne for having this open and being so willing to help, haha. my question could be very a very obvious one but... a question none the less:

i've just started e-whoring and only started taking money in 2 days ago. today, someone back charged me and i've gotten really paranoid about my IP/paypal etc as i haven't been using VPNs purely because i don't quite understand them. i've been told different things:

- do not use a vpn for paypal as different IPs make you look dodgy and attract more attention
 - do use a vpn always for protection because paypal could then find all your other accounts, including main and ban you
- etc etc

i just kind of wanted clarification of, really, what i should be doing and how.

Honestly, when it comes to Paypal's I am not sure on the best route. If you have an account just for E-whoring I would say to use it on a vpn, but you should also have created it from that ip. I see a risk in just hopping on a vpn and doing transactions. If you do want some more help you can add my Skype or simply reply to this.
