Thread: [My Avatar Changed?](#)

Regulus - August 6, 2014, 6:34 pm

Hello there guys, so i don't know what's going on to be honest but my Avatar just changed automatically and i have no clue why and how.

Pretty scared my account is hacked or something like that? Help someone haha?

Gambino™ - August 6, 2014, 6:35 pm

I've seen you around a while, and you had the same avatar. Did it change right now or did you already change it back?

Grumpy Otaku - August 6, 2014, 6:35 pm

It looks longer than the last avatar you had.
PM staff and have them check your IP log.

Pillows - August 6, 2014, 6:36 pm

Check your IP logs and see if anyone logged in. But if you got infected chances are they're using you as a socks proxy.

^

That's only assuming you got hacked and don't have a bad memory.

Colours. - August 6, 2014, 6:36 pm

Same here, I am freaking out lol!

Is this what you see too? <https://gyazo.com/122038ab724a4b43e69d59702d5a5a30>

You need to self ban yourself for 6 months as mentioned before.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
