I got an account and all that but when I'm trying to connect, it says "connecting" for about 60 seconds and then "the connection has failed"??

Depending on where you are located, the connection speed will vary. You can route HF to use your real IP.

Vouch for this free VPN and Nieeli!

IJigsawl - August 9, 2014, 6:42 am

Why are you guys keeping no logs if you stat you don't want illegal activity? Isn't that why people use VPNs with no logs ?

Nieeli - August 9, 2014, 6:51 am

Some people use VPNs with no logs so they feel safe knowing that nobody is able to see what they browse on the internet (even if it's legal).

Rote - August 9, 2014, 7:44 am

Vouch worked just fine. Can be a bit slow depending where your at. Nice and easy to use. Thanks!! :o it doesn't log? Even better!

Nieeli - August 10, 2014, 12:32 pm
