Care to explain how this is 20% win rate? Not sure you're exactly doing the math right.

The winrate is 15.8%.

I'd love to take part!

10/8/14 was the date of entry.

Then you should change the winrate in the title to 21.7%. :)

rounded it off to 22% :)

if the list get's full i might add more spots / more winners will have higher then 22% winrate to keep it fair .

In your thread, it still says "3 winners". Might want to fix that since you're making it 4 winners now.
