Thread: [Need a logo asap.](#)

Blogger - August 10, 2014, 2:07 am

I need a more modern, web 2.0 version of the attached logos. I'd prefer the island logo but would be nice to somehow incorporate the papyrus with it.

Green, brown and white are the colours of the business. I need it in vector, the .psd and a jpeg and/or gif.

I don't know how much to pay for this so let me know and we'll negotiate. Thanks!

I can do this for you at a really low cost. You want that logo on it?

You like? <https://gyazo.com/78fc2cef4a1564d2dfd396928215b735>

Blogger - August 10, 2014, 8:36 pm

Thanks for your effort but I don't like the font(it doesn't match the theme) and the plant is not the papyrus in the picture I provided. Nice first draft though.

Blogger - August 17, 2014, 2:44 pm

Is anyone able to do this? Really need this done.

afk0 - August 17, 2014, 2:46 pm

Working on this now m8. Will update when I am done.

Blogger - August 17, 2014, 2:49 pm

Thank you very much. Please send me a quote as well.

If you like it, I will remove the watermark after payment & supply PSD.

Also I can change colors, add whatever you like...

Blogger - August 17, 2014, 3:04 pm

I rater have the company name brown and the trees green and closer in look to the ones provided by me. So far it's the best I've seen though.

I tried to keep it close to your design, but you said to modernize it so I did

Blogger - August 17, 2014, 3:12 pm

Sorry about the confusion, I should have been more specific. I meant to modernize the font. I'd like the plant exactly like that, but without that drawn look. The font you're using is fine but I want that plant to look just like the drawing I provided but designed, if that makes sense. :/

afk0 - August 17, 2014, 3:16 pm

Will do the text now.

I really don't mean to offend you, but is this a joke post?

afk0 - August 17, 2014, 3:30 pm

Hows that?

Blogger - August 17, 2014, 5:27 pm

You just cut and paste pieces of what I provided. You do know I'm looking for the psd, right? And I would like that plant to be designed, not look like it was drawn(as it currently does).

Okay here is my serious entry.

I will give you the PSD and everything so you can change the ballsack part... If you wanna buy it.

zStabilityy - August 17, 2014, 8:01 pm

Here's my second attempt let me know if you like it or how you want it. My designs are cheap in price.

To the other guy, the font was nice but everything else was designed by me.

Hydra - August 23, 2014, 12:33 am

Wait, so do you want us to vector what you provided us?

Like turn this into a vectored image that is HD and doesn't look like a drawing?

Blogger - August 23, 2014, 12:35 am

I do want it to be designed. This is just the idea of what I wanted that I personally couldn't design in Photoshop.

Ohh, okay, so not the same exact one. Alright, thanks for clearing that up. Will try to get one done today(2:38 AM and going to sleep now).

Blogger - August 23, 2014, 12:47 am

Thank you so much. Can't wait to see what you come up with.

This is my entry. Colour/layout/font/anything can be changed if need be.

Blogger - August 23, 2014, 6:13 pm

I love that plant, it's perfect. I'm not into the font though. Can I get something more modern, but planty. lol Something like the following:

<http://www.dafont.com/restaurant.font>

<http://www.dafont.com/candlescript.font>

<http://www.dafont.com/goldfinger.font>

<http://www.dafont.com/opificio-neue.font>

<http://www.dafont.com/explogos.font>

Maybe the business name can have a font like the last two, and the tag line, Committed To Your Growing Success, in one of the other fonts.

The "Grown on Maui" part can be put in the lower right corner sort of like a seal. Also, I'd like the words moved next to the plant like in this picture: <https://imgur.com/ZzzKVdH>

How much are you asking for and do you have the psd as well as other (basic) formats (gif, jpeg)?

pixelzz. - August 24, 2014, 12:10 am

Hey can do! Does \$30 usd for the lot sound like a fair price? Let me know. Ill have the finished product to you in about an hour :)

EDIT: The logo was done in illustrator. Would you still like the .psd (can covert for free) or is .ai fine?

2nd EDIT: <https://i.imgur.com/Xz5DNhv.png> any good?

Blogger - August 24, 2014, 5:47 am

It looks good but I'd like the seal in the bottom right corner(and maybe a little smaller but still legible without straining). Also, no Disney font, it looks irrelevant and the italicization looks weird.

Can I get the psd, too, with a jpg?

Bass_Drop - August 24, 2014, 7:35 am

Can be delivered in .eps and/or .ai format.

Contact me if you request it.

This is traced using pentool and not the automated image-trace most people use.

With the EPS/AI comes 2 separate files, the file you see on the picture that has 3 shapes: Letters, the brown background and the green plants so you can easily change color as you see fit.

The second file is the original plants lines, if you're a AI use, you can easily change the stroke widths etc.

No watermarks.

EDIT:

With the little symbol in the bottom right corner, and with the text put to the illustrations right side.

Not that the symbol is NOT vectorized.

Blogger - August 24, 2014, 9:57 pm

I like the green in your first version. Would you be able to make the second version but with the plant like the first version? Also, I'd need a psd and jpg as well and the words,"Committed To Your Growing Success"(no quotes), under the name. How much are you looking for?

pixelzz. - August 26, 2014, 12:26 am

Hey sorry for not getting back to you I was rather busy outside of HF, do you still want me to complete this?

BalFirmary - August 26, 2014, 12:58 pm

Are you still wanting this done? c:

Blogger - August 28, 2014, 9:19 pm

Yes, I still need this done, please.
