Thread: [Weird popup when viewing threads](#)

audrey - August 10, 2014, 7:30 pm

Every once in a while, I'll click on a thread and a weird window appears while it's loading; it looks like this: <https://i.gyazo.com/23050441027aeec0276e8cdc23432f54.png>

This has just started happening today, and I have no idea why.

Shockley - August 10, 2014, 7:30 pm

That's happening to me as well, lel. Thought I was the only one.

Jay? - August 10, 2014, 7:31 pm

It is a script someone has set via their avatar.

Ignore it and do not login.

xploD - August 10, 2014, 7:31 pm

Happened the other day, just a 13 year old skid hosting his avatar on a site that requires authentication. Just don't enter your password and move on. Using adblock stops this.

Okay, thank you for answering this for me.

Report these to staff when you find them.

Dealt with.
