[Zankyou no Terror](#) would be a good one to have. ?

Looking forward to the screenshots!

Chrome won't let me download it, it said it's a malicious file.
Probably just a false positive.

Probably just a false positive. Its because its on Dropbox. Go to downloads page in chrome and click recover file.

Funny enough Chrome let me download it without a hitch. Might've just been his settings.

I just love this option chrome gave me:

I tried the program, it took forever to start the video and had non stop buffering.

Another bug I found, the when you close the window while the video is playing, the video keeps playing but you can't see the window.

OK will sort that out. Thanks for reporting the bug.

Updated Thread. All errors are fixed and I have added some features.

Ha, alright thanks for saving me the trouble then. Thanks OP for creating a better one. I just got this new laptop a week ago, hopefully it doesn't fuck it up. ?

I trust you Aesthetics.

Could you integrate with Hummingbird too? Or just MAL?

Evil Corp - August 12, 2014, 1:16 pm

Downloading it right now! ^^ Akame Ga Kill sweett awwhh yea.
