Thread: [Scammed by Phase \(Juztice\) for \\$140 + cost me another \\$125](#)

MegaYouTubeViews - August 11, 2014, 6:02 pm

This Scam Report is About 'Phase':

<https://hackforums.net/member.php?action=profile&uid=2166938>

Phase is holding \$140 of my money (this can be returned as \$80 PP (via a refund on the payment) and .1 BTC, which was the way it was sent to him - proof of payment:

Spoiler ([Click to View](#))

[img]http://i7.minus.com/ibkqYozGQ5886e.jpg[/img]

[img]http://i1.minus.com/iVdOvFj2S3Ueb.jpg[/img]

Please let me know if I need to uncover that info, I was not sure if I could show it, but I don't think he is going to deny that I sent him the money as he acknowledge the amount I have sent him in his reply to my PM where he refuses to give me a refund.

This is the thread where I was scammed:

<https://hackforums.net/showthread.php?tid=4383792>

This really is tl;dr - the only people who really need to spend the time to read this whole thread are Phase and any staff who decide to get involved, but here is the short story:

1. I offered to buy Phase's system "COC Gems Recovery" Method + Full Project + Resell Rights + Previous Customers offered here: <https://hackforums.net/showthread.php?tid=4383792> on Skype for \$140

2. He accepted via Skype

3. I posted on his thread to confirm the offer

4. He posted on the thread publicly accepting the offer, saying the auction was over, and that he was closing the thread, and closed the thread.

5. He got a better offer via PM the next morning and told me he would be accepting that one instead (even though I had already paid the \$140, and invested another \$125

6. I let him keep the money while the auction continued so I could possibly win and only have to pay the difference between my winning bid and the offer price I had already sent him while I tried to stay on a good note with him despite feeling screwed over.

7. He gets a full price \$300 buy it now offer on the thread

8. I request a refund

9. He acknowledges that he never sent me the method, while simultaneously refusing to give me a refund, because he clearly states he doesn't give refunds on all his threads (not true), and because his T.O.S (of the service I am buying, not the T.O.S. of the sales page, says no refunds will be given.

10. He told me I had an 80% chance of not getting my money back if I charged back and opened this scam report and that I should just shut up about it and pay him an extra \$80 to get everything (you know, the everything I already bought once)... unless the guy with the \$300 offer came through, then he would only give me 50% back... You know.. because he is a nice guy and wants to help me out by giving me back some of my money while he acknowledges that he didn't give me anything I paid for.

The full story:

Spoiler ([Click to View](#))

I broke the character limit; I told you it is tl;dr... If for some reason all of this info needs to be on HF itself and not linked, I will start working on shortening it down now so that it will fit in this thread, I just felt it important that the whole story was told, as I want to make sure that he does not get away with this, and does not try to do it to others in the community either:

Want To Support Me Getting My Refund?

No need to -rep him, he will just -3 you back anyway

No need to +rep me, I already know he owes me a refund, but I do appreciate everyone who has messages me, etc and let me know they are on my site...

No need to spam his threads or threaten to DOX or DDOS him

Here is what I suggest, add the following to your signature, and get the word out what 'Phase cannot be trusted.

Oh wow, that's being a big douchebag. This seems like a legit scam report, and before anyone tells me I'm just posting this to boost my post count I'm not. I did read everything and 'Phase is being a douche about this. He should give you back your money, or his reputation (As in on HF, not the number of positives and negs but his "name" on HF) would go up in thin air.

Droganan - August 11, 2014, 6:08 pm

What kind of fucking stupid shit is that? Clearly a scammer. Sorry for your loss!

Tyler? - August 11, 2014, 6:11 pm

What a toolbag.

His excuses made me laugh. ToS means nothing when you're selling the entire thing. You got nothing and he wants to refuse?

I really wish scamming fags got banned more often. GL OP.

Freddy K. - August 11, 2014, 6:24 pm

I dealt with Phase today and received the product i paid for, though it is sad to see him scam someone. I thought he was legit :(

Tokyo - August 11, 2014, 6:26 pm

Hopefully this gets resolved. Would be a shame of him risking his reputation for \$140. Good luck getting your money back OP!

Decentral - August 11, 2014, 6:27 pm

Definitely a scam report. Denying you a refund even though he told you he will not send the method. That's wrong. Douchebag.

Munch - August 11, 2014, 6:27 pm

I'll cut it short for everyone who doesn't want to read this trash.

Vouches he made before he got money hungry:

<https://hackforums.net/showthread.php?tid=4381808&pid=41700281#pid41700281>

<https://hackforums.net/showthread.php?tid=4381808&pid=41712546#pid41712546>

- 1) He saw me selling my method and getting tons of sales , he got hungry for cash.
 - 2)He then purchased my service (knowing) he did a public refund method before and didn't inform me saying its my fault. (When my T.O.S clearly says no refunds).
 - 3)I'm guessing he let it fade off and decided to continue on purchasing my method , so he offered me \$140
 - 4)I accepted but told him I would like to wait 3 days just incase another bid is made
 - 5)No more then 24 hours and and another bid was made so I told him "then and there" ill refund him then he starts crying that he doesn't want a refund since he spent \$100+ on google play cards , complaining I screwed his life and him over like any of that has to do with anything.
 - 6)I told him instead of giving him the method ill just let him take the partnership deal (method , a percentage of the sales, lifetime access to the program) HE ACCEPTED (Also stated no refunds)
 - 7)Once that deal was taken he started asking me around the clock for the method, I talked it over with my partners they said test him. I thought it was a good idea.
 - 8) I tested him by showing him a percentage of the method , just to see what he would say after receiving some knowledge of the method.
 - 9)He says "kool" "kk" acceptable behavior at first then I'm doing orders today and get a PM saying "Okay this has to stop" where he began to threaten me.
- Code Example: (His words from PM)
- If you think I am going to read that rather than go post the scam thread / pm people about it / charge back / tell people they should do the same / expose your selling of a private method when I am busy compiling the screen shots of our Skype convo that clearly says that you will only be selling to me, and that you will be selling everything for \$140 to me, and I will get a lifetime membership until you go then I get the method and resell rights, then you are right, because I respect people enough to read what they have to say to me. The TOS is for us for the service, which I paid \$2 for and do not expect a refund for. I do, however; need a refund for my offer, which you like to call a bid, which has clearly been outbid, so you obviously have no reason to not refund me. Don't do this with me. I am tired of being scammed, and I will not just give you \$140 for absolutely No Reason, because not only would you be taking that from me, but you have also caused me to spend \$147 on Google Play cards because I thought you were selling me the method - you know, when you agreed to.10. Basically he was tested on how he would react and he failed , I wouldn't dare give a high valued method just that simple to a member with the stats he has. If he would of passed the test and waited then I would of had showed him the rest of the method. Instead I gave him 2 choices and he decided to go with this.

T.O.S Broken;

-You report to me if you have any problems

-No Refunds unless I fail, If I succeed one time that means you have used my service and no longer eligible for a refund.

-No Cancellation at all even if you don't use the program once.

-You won't in any way leak or publicize anything about the method. Once you receive the method there's no turning back.

Yet he still result in this being a public refund.

My method (Yes i'll give hints) Involves partial things from the Refund method, not the full refund method. I get accused for it many times but I don't let it get in the way with my sales.

Him agreeing to the partnership after me telling him what and how everything will happen:

MegaYouTubeViews Wrote:Phase Wrote:MegaYouTubeViews Wrote:Phase Wrote:
MegaYouTubeViews Wrote:Phase Wrote:I have nothing to do with your bills or life.

I mentioned the 3 days frequently, you kept rushing so I said I'll take it as a "pre-order" not an official payment.

The 2 options still stand and can you stick with one message not multiple?

Sorry for getting so upset, it just seems like you said one thing yesterday and another this morning once you were faced with another offer, and that is not how I do business, but whatever, this is Hack Forums; let's move on. Detail the partnership for me please. Just give me a list of everything I would and would not get, give me any terms and conditions (like the 3 day thing), and let me know what else would be done with the method (are you going to sell resell rights it to one other person, or 2 now?), etc. Please just take 5 minutes to type out a clear description of what I am getting, what I am not getting, what I would have to do, etc., and I will get back to you and let you know what I decide. For partnership you I'll add you to the thread so they can contact you and me. I will have your program edited to submit 999 a day thats all.

You take their money then submit the order and I do it. Easy.

Partnership: I get the method for personal use (no resell rights at any time (now, when you are gone, when you come back - ever)) - that way I can keep using it once you leave. I will take orders, get contacted from people on the thread, give them support, make sure to post in response to any questions, and complete their requests and give them service. In return you can either give them a % of the money we make or not, but without the method for personal use, I would just be paying \$140 for a lifetime membership.

"I will have your program edited to submit 999 a day thats all"

That would be great if it were instant, but it takes a few hours anyway; 5 times a day is plenty. Me getting the method for personal use is important to me for 2 reasons:

- 1) I want to be able to submit requests as soon as I make a purchase.
- 2) I want to be able to do this after you leave / in 3 years from now when I don't even know you or the other guy or whatever.

Also, if this \$200 bid doesn't come through, am I still the highest bidder on the whole project? Including the resell rights and everything? Because if I accept the partnership idea, it would be conditional on the idea that if this other bid doesn't come in during the 3 days period from the time I placed my bid, like you said, that I would still win the auction for the resell rights, and everything, to be delivered before you leave. I just wanted to make sure we are still on the same page since he still hasn't posted. Alright I'll get everything packed into a file and teach you on team viewer tomorrow evening.

And no there is a \$160 bid even if the \$200 bid doesn't come.
All right. Sounds good. I will download TV.

Staff won't get involved, if we even call them a scammer in a rep for scamming if it's not us we get RF'd like were the bad ones.

Scamming is so bad on this site because staff are too worried about little stuff then actual important problems that matter on this forum. They only deal with things that don't take much time or investigating.

First of all why would you buy that, it's the same method everyone uses.

Waiting on your scam report thread..I did that to stay on your good side while I waited to see how the auction would turn out and if I still wanted to bid it to win, and then you didn't send me the method, as you just admitted, so how about you just send me a refund and we can move on.
That's all I have to say. He says he did it to "stay on my good side"
This is business not a friendship.

MegaYouTubeViews Wrote:Phase Wrote:MegaYouTubeViews Wrote:So do you actually have anyone else processing orders, or is it just you? It's cool either way, I am just asking, because if at any point you want to let me in enough to let me do orders for you too, that would be cool. It doesn't really matter to me, I just figured I would be able to do my own, which would be convenient, and in exchange for that convenience, I would do some for you at night (once you get off), or when you are away from the computer, so that people get a faster response time, and are more impressed with the service.

For hf just me.

Right on. Well let me know if you want any help between now and when you leave - like we were going to do with the partnership. I have plenty of free time :)

HE DECIDES TO STILL SEND ME THE PAYMENT AFTER I TELL HIM TO WAIT.

I told you if no one bids within 3 days ,

Why would you send me a payment now when it was supposed to be sent last night? I will be refunding you.

Final. If you want you can bid again , I will be keeping that thread open intill the deadline.

I don't understand why you would do this to me after I have already purchased it, and we have a deal. There was nothing about 3 days in my offer that you accepted. I sent the money on PP and the requested the BTC be sent to you last night, and then I went and bought \$125 of Google Play gift cards. That was all the money I had... What am I supposed to do with that now, mate? You are really screwing me... We have a deal.

Oh look what I found...

MegaYouTubeViews Wrote:Phase Wrote:MegaYouTubeViews Wrote:Phase Wrote:
MegaYouTubeViews Wrote:Phase Wrote:MegaYouTubeViews Wrote:Phase Wrote:I have not received the BTC still.

You used me, and that is so incredibly low. I trusted you. I sent you the money and I went and purchased \$125 in gift cards. Why are you doing this to me?I did not use you..you still have a months worth of access so you can still get your gems recovered.

The guy is still not online so for now you are still the one in the lead but when he does bid I will refund you. Fully.

If you want you could just get the partnership role and make some money now untill I leave on the 28th then you will have extra money and the whole project.

I have also changed it to me selling 2 copies but I'll sell the 1st copy to you half off since you put the most time into it.

I trusted you to do what we agreed on, I was going to do my first \$99 purchase today, and now I am not even sure if I can, or what I am supposed to do.You have ONE MONTH LEFT OF SUBSCRIPTION do you not understand you are making no sense?Yes, I understand that, but that is not what our deal was for.Our deal was clear , I mentioned the 3 days part more then once.

You have 2 choices

-Become a partner and use the method with me to make money (I'm getting to many orders so it would be best if you helped out)

-Get a refund and use the rest of your months access then move along.

But that was not what our deal was for, so why are you changing it now? Fine..... It is what it is, right? If you are going to screw me then I might as well bend over. Please explain the two options, and what they would entail (make sure to explain everything here and now, and not rely on anything you have said before or on Skype), as I want to make sure that what we agree on here is what we both think it is.

The partnership, it would be like the first partnership? I get the method, but no resell rights ever, and I help with orders?

I really need the method, especially since I have already spent \$147 on Google play gift cards, so I don't just want a refund, so let's talk about the partnership, ya?

You were posting on the thread, you may have not seen it when it was closed, but you were watching, and probably saw some of what happened.

He isn't a scammer like someone who says they will give you back links, charges you \$300, and then nothing happens... He just changed his mind on selling me it (after the deal was done), and is now a thief, because he wants my money and is simply taking my \$140 that I sent him.

Maybe he spent it on gems or something stupid the day after I gave it to him and doesn't have it to give to me, but at any rate, he admitted to not sending me anything because he didn't think I was mature enough (to not release the private strategy I guess?), so I am not sure why he is even trying to deny that he owes me a refund.

I am not going to quote your long and useless post, but I will address a few things you said.

(Aug 11, 2014 06:27 PM)Phase Wrote: [\[CITE\]](#) 2)He then purchased my service (knowing) he did a public refund method before and didn't inform me saying its my fault. (When my T.O.S clearly says no refunds).

3)I'm guessing he let it fade off and decided to continue on purchasing my method , so he offered me \$140No, I actually never did any other refund method... ever. I made that account the day I bought your services, so there were no other methods used, and no fading off.

Quote:4)I accepted but told him I would like to wait 3 days just incase another bid is made Really? Post your version of the Skype logs, because mine has you saying, "I accept your offer" after I presented nothing about 3 days in case another bid is made. I made it explicitly clear that it was an offer; not a bid, and that you were accepting my offer then or never.

Before I finish going through all of this.. Does any of it matter. You agree that you didn't send me the method I paid for. Or the whole project I paid for before that. How have you not refunded me yet?

I'll continue:

Quote:5)No more then 24 hours and and another bid was made so I told him "then and there" ill refund him then he starts crying that he doesn't want a refund since he spent \$100+ on google play cards , complaining I screwed his life and him over like any of that has to do with anything.

Making a contract with someone, and having them make financial decisions based on your contract with them makes you liable for damages that I incur. This obviously isn't court, but there is a reason why that is in place, because I invested \$125, and you made it useless.

Quote:6)I told him instead of giving him the method ill just let him take the partnership deal (method , a percentage of the sales, lifetime access to the program) HE ACCEPTED (Also stated no refunds) Let's assume I agreed to this no refunds partnership for the method... You haven't sent it to me, the deal has not been done, I decided to go with someone else (you know; 3 days to decide if I really wanted to do that deal and I'll; give me a refund.

Quote:9)He says "kool" "kk" acceptable behavior at first then I'm doing orders today and get a PM saying "Okay this has to stop" where he began to threaten me. Are you for real? I sent that PM after you sent me a PM saying,

Phase Wrote:If you think I'm reading all of that when I'm busy doing orders you must be dumb.

I noticed you stated the "3 or 4 buyers" Yes they all purchased a whole different method not the one you have.

All my threads state no refunds , charging back will result in a loss & I'll open a deal dispute.

T.O.S also says going public with issues will result in a automatic blacklist.

Also everything you stated about HxD is completely 1 sided.

I also see you messaged me saying "consequences" on skype lol, I didn't even send you the full method yet I just wanted to see how you would react and with all this "drama" and negative

feedback you are giving me it seems you aren't fit to learn the rest of the method. I'm actually stunned you though the method was that easy ?

You have 2 choices.

1) Chargeback / Post scam report

Results; 80% chance of losing the chargeback.

2) Keep supporting and stop nagging to me asking for panel access because as of now you will have to show me you are mature enough and not a whiny bitch.

~

Also I stated that it will be 3 days to everyone , you are more money hungry then me lulz I also will be only selling 1 full copy of the method and closing the thread. BUT since you are so mad and so obviously i'll give you a discount. Yea you already paid \$140 right? I'll give you everything , yes EVERYTHING for \$80 BTC this will only last tonight but if the guy that messaged me earlier pms me before you (he offered to buy it now for the full \$300 then I'll refund you 50% of what you paid since I have services you already and don't normally do refunds. then you can go on with your like.

Lmao he continues to sales trash.

Dude... You didn't give me any offer that I accepted. I gave you an offer, and you accepted it. My terms, my deal, my offer, like I had presented to you, and there was definitely nothing about 3 days.

Still, you have my \$140, and I have nothing. There were no T.O.S. on the thread I was posting on. Stop making this so complicated. Why have you not processed my refund?

Why are your options in your mind not:

1) deliver the method

2) deliver the refund

??

You have \$140 and I have nothing, I broke no T.O.S. because no tos were even posted, not that they would give you a right to withhold my money after breaking contract with me and selling to someone else. You were in breach of contract when you said you would be selling it to the other guy. Don't come in here talking about T.O.S!

MegaYouTubeViews Wrote:Phase Wrote:MegaYouTubeViews Wrote:Phase Wrote:I have nothing to do with your bills or life.

I mentioned the 3 days frequently, you kept rushing so I said I'll take it as a "pre-order" not an official payment.

The 2 options still stand and can you stick with one message not multiple?

Sorry for getting so upset, it just seems like you said one thing yesterday and another this morning once you were faced with another offer, and that is not how I do business, but whatever, this is Hack Forums; let's move on. Detail the partnership for me please. Just give me a list of everything I would and would not get, give me any terms and conditions (like the 3 day thing), and let me know what else would be done with the method (are you going to sell resell rights it to one other person, or 2 now?), etc. Please just take 5 minutes to type out a clear description of what I am getting, what I am not getting, what I would have to do, etc., and I will get back to you and let you know what I decide. For partnership you I'll add you to the thread so they can contact you and me. I will have your program edited to submit 999 a day thats all.

You take their money then submit the order and I do it. Easy.

Partnership: I get the method for personal use (no resell rights at any time (now, when you are gone, when you come back - ever)) - that way I can keep using it once you leave. I will take orders, get contacted from people on the thread, give them support, make sure to post in response to any questions, and complete their requests and give them service. In return you can either give them a % of the money we make or not, but without the method for personal use, I would just be paying \$140 for a lifetime membership.

"I will have your program edited to submit 999 a day thats all"

That would be great if it were instant, but it takes a few hours anyway; 5 times a day is plenty. Me getting the method for personal use is important to me for 2 reasons:

- 1) I want to be able to submit requests as soon as I make a purchase.
- 2) I want to be able to do this after you leave / in 3 years from now when I don't even know you or the other guy or whatever.

Also, if this \$200 bid doesn't come through, am I still the highest bidder on the whole project? Including the resell rights and everything? Because if I accept the partnership idea, it would be conditional on the idea that if this other bid doesn't come in during the 3 days period from the time I placed my bid, like you said, that I would still win the auction for the resell rights, and everything, to be delivered before you leave. I just wanted to make sure we are still on the same page since he still hasn't posted.

He did get what he payed for , he switched to partnership.

Then he tried to switch back to the auction after agreeing to partnership.

He also sent the BTC after I clearly told him I was refunding him since I'm taking another offer. He chose partnership. Then tried to change his mind and get a refund since I wouldn't give him access to the panel (access to the accounts people use for the service).

Once I saw that then I knew for sure T.O.S #6 was in effect.

I'll cut it short he switched to partnership, one day later he wants a refund or the full method. I deny him since partnership said no refunds on the thread before I removed it. then he sales trashes and tries to threaten me with continuously sales trashing. ?

MegaYouTubeViews - August 12, 2014, 4:04 am

So Phase.. You seem to keep talking about the imaginary TOS that applies to every thread you post everywhere but is not on the thread itself... That TOS, ya, you know the one. Why when I sent you a PM today asking for you to refund me, what was your reason then to not refund me? You admit you didn't give me the method, you sure didn't send me the whole project, you accepted another offer, etc. I hadn't posted this thread so I hadn't broken the TOS yet, right? What was your reason then to not give me a refund.... Something to do with wanting to keep my money for no reason, or can you actually make something up that sounds half way reasonable to answer my question: Why didn't you

just give me a refund when I asked for one.

I really hope you give me an answer to, instead of something like, "I offered you a refund when someone else bid more than you" because that is not what I am asking you. I want you to tell us all why you didn't refund me before I broke your imaginary TOS that would supposedly allow you to keep my money if I were to break them. Is it what you said in your PM? "All my threads state no refunds" because that thread says nothing about refunds... At all, and I think the default is: if you don't give someone what they pay for; you refund them.

Tell me Phase, why no refund when I first asked for one? That is all I want to know, because everything else you have posted is either lies (like having a TOS or a refund policy on that thread at all - you do realize it Still says nothing about a TOS or refund policy, anyone can go look at the thread and see that I obviously didn't agree to any TOS or refund policy when making my offer, or is just irrational, like you not having to refund me because I changed my mind from the full package to the partnership and there is no refunds on the partnership - which, by the way, you haven't shown proof of; the PM says nothing about refunds, and like I said before, I think we all know that you give someone a refund when they pay you and you don't give them what you agreed you would. I had done nothing to break your TOS or refund policy before posting this thread.)

I had a problem and I brought it to you, just like you say you wanted, but then you said,

"You have 2 choices.

1) Chargeback / Post scam report

Results; 80% chance of losing the chargeback.

2)Keep supporting and stop nagging to me asking for panel access because as of now you will have to show me you are mature enough and not a whiny bitch."

Well guess what, you have been giving me 2 crappy choices for the past week, and I have been choosing what seemed like the less crappy one each time, but here's the thing. You made a deal, and you backed out of it. That isn't always going to be as simple as, I went with someone else. I am taking his offer, either I will give you a refund ignoring our deal or you can have partnership instead, still ignoring our deal. You are going to get sued one day, and the judge is going to tell you that when you make an agreement and people spend money because of it, not only would you be responsible to pay back my \$140, but also my \$125, so guess what. If you actually think that this is how the world works, if you are not just purposefully scamming me right now, and you actually think I am some how in the wrong here, then you are going to get hit hard by life, and I will pray for you for when that happens, because it isn't going to be pretty. The only reason you could keep my \$140 would be if I caused you costs because of our agreement and you had to try to recoup some of your costs from my money, but that is not what happened... You gave me nothing, and you are just keeping the money. You were just keeping it this morning when you said I wasn't getting a refund, you are just keeping it now with the addition of a claim that I broke your TOS by posting a deal dispute (shouldn't it be against forum rules to say, if you post a deal dispute, I will have the right to keep your \$140??), and you will be keeping my money tomorrow as you continue to lose sales, continue to get -rep for scamming me and making absolutely No effort to rectify the situation, and you will continue to become more and more untrusted.

So guess what Phase, sometimes it isn't up to you to decide "how it is" and tell other people "how it is" because you believe it is that way, or you think it should be. When you have a deal with someone, you do it unless you can't. You just wanted more money, so you told me to eat it. Sometimes someone else gets to make the rules, so here they are. Here are Your two choices:

1) Give me my refund via a refund of the PayPal payment and .1 BTC returned to me (I will supply you with a wallet ID at request).

or

2) Eat it Phase. You will suffer for scamming me. It is already becoming apparent that you are losing trust, losing reputation, losing sales, and losing future business because of your poor actions and attitude towards this deal and towards me as a member here who did nothing to deserve what you have done to me. I may not get my money back, but you will sure lose more than the \$140 you are taking from me now. Maybe you will get banned, I don't know; I can hope so - then you wouldn't be able to do this to other people here at least.

Yes Phase, the question stands. Why did you not give me a refund when I asked for one, before I had to post this scammer thread and change my posts on your threads to make sure that people knew I no longer trusted you or your method, and that I can no longer suggest they use it or deal with you? Why didn't you just hit the refund button? Is it because you said the partnership was no refunds? Then prove it. You said you would post images if I disputed something you said, so prove it, because I would never agree to something like that just as I would never agree to giving you 3 days after taking my money to accept another offer in the first place. Go on then Phase, post your images, show your proof to the world. We are all dying to see where I agreed to get a partnership with no refunds. -- Free Tip: If you want the no refunds thing to work; you do actually have to delivery the product you want to not give a refund for, which you didn't, so even when you Photoshop some proof that I agreed to a nonrefundable partnership, it would still remain. If you decided not to give it to me, because I 'failed your test' Why Did You Not Give Me A Refund When I Asked For One?

Obviously 'Phase has scammed the OP. If not he wouldn't be getting so mad and defensive like a child.

It's clear to see, 'Phase is not to be trusted at all.. Very immature when it comes to business. That is obvious. If he had any business sense at all he would send me a refund when I sent him a PM half as long as the full story I posted here and said, 'give me a refund and we can move on' when someone is upset enough to write you a book, you give them a refund, because that means either you are wrong, and owe them \$140 and are going to cause you more damage than \$140 by posting a scam thread / changing support on your thread / warning other people about what happened, or they are ignorant and you don't owe them any money, but they are still able to cause you more damage than \$140 by posting a scam thread / changing support on your thread / warning other people about what happened. Do you know what you do at that point... Refund them. You don't even reply to anything they said except to say, "Refund sent" and then you add them to your ignore list, you block them on Skype, and never deal with them again.

In this case it is clear to him that I am right, but he still has chosen to take more damage in the long run (maybe he is really poor and the \$140 was his rent money, so he doesn't care that he is losing sales daily and getting a red name and a bad rep; he has his rent paid for the month, and he can move on). \$1 today is better than \$3 tomorrow for Phase... That is clear.

GamersUnited - August 12, 2014, 2:22 pm

So he was just selling you that program that would give you the person's information for him to then do the public method....

You do realize you paid 140 dollars for a public method correct?

Anyways.. You should be refunded.

Generic Username - August 12, 2014, 2:35 pm

Good luck with getting a refund, this is a very legitimize scam report you have here.

Ao. Not completely. He has a program, customers who are already paying him for this which would become my contacts to say, if you still want this service here are my fees. Gif me money. I could sell on HF without having to do anything (I would just take over his business), I would get the auth system and the tool, and the ability to start off with vouches of the method I would have been selling (because it would be the same one as was being sold on the old thread), and I would make the \$140 back from that + my main point in buying it was for personal use, so if there was anything that was not the public method, if there had been anything that was actually a good idea or would get the refund to work more often or more times before they block you, then it would have been worth it for personal use (business, but I mean me using it for my own refunds).

So now... Yes, I do realize I paid \$140 for a public method and the program and customers who pay for it, but that doesn't mean I don't deserve what I paid for - the tool, the auth system, support from Phase, previous customers, the right to sell the tool on HF, and take over the sales. Since he doesn't want to give me any of that, I just want my refund.

splunk - August 12, 2014, 3:36 pm

Phase, FUCK your T.O.S.

If I hear that damn word again I might rip my hair out. I've read this thread a million times. You insist

that anyone who calls you a scammer "didn't read this thread". I'm actually going blind looking at this shit. Look, I know he switched to a "partnership" or whatever, but there is NO CANDYCOATING.

THE BOTTOM LINE IS:

He fucking gave you money. He didn't get ANYTHING in return. You either gambled with his payment, or your just keeping it with a shit-eating grin on your face. I don't give a fuck what he bought from you, or what "TOS" you have. He lost money, he got cheated. Somewhere, somehow in this pile of dog shit.

OP: I have a chargeback method that works every time, PM me, so we can get your PP back at least. If he moves the money to another account, or spent it already, he'll just go negative, and you'll have your money back.

MegaYouTubeViews - August 13, 2014, 3:25 am

This was his reply to the scam thread being added to the official database... which he was notified of via PM

"User wanted partnership, which he got before showing his true colors which resulted him into being dropped. He saw it said no refunds and that's all to it. Good day."

Are you changing your story now? Did I get it, because I don't recall actually receiving anything, and just to be clear; I wanted to buy the method; that is why I posted on the thread where you were selling the method with my offer of \$140.

OP PayPal is not an unreasonable machine, simply open up a dispute and provide best explanation as you can. 'Phase is a scammer and there's no sugarcoating it.

@'phase After being paid for partnership you do NOT get to choose what you want to share whenever you want to share it, or "test" people so quit being retarded because that's not how any business is done.

Point being you're NOT getting your money from 'Phase, he has decided that it is his, hence he is a low life piece of garbage scammer, so only hope you have is a DISPUTE.

This could be the amount of money they have made from working online for like a month - if they are a 16 year old in high school and just getting started working online, then this would suck a lot more than it does (financially) for me, but I still get really upset about stuff like that.

It's just not right to take money from people, and I tried to do something about it here, and I appreciate all the support of those who have joined me. I guess Phase will just have to live with being a scammer and not making as much money in the future because of it (bank robbers never will make as much money as even a little bank), and we will all just have to move on knowing that he is a scammer and never dealing with him again... You know, unless he resolves the 3 scammer

His "custom coded program" is just a program connected to a server that hosts a list. Anyone that puts their account info and order ID will be seen on that list. Where he then just does the public method. He only supports Google to hide the fact that it's the public method. Since Google doesn't send detailed reports like apple does.

They aren't useless, the guy lost some rep, is in the scammer database, there are some members who -rep'ed him, which means they will probably know not to do business with him. It has to keep some people from being scammed in the future. It might make the scammer consider the idea that taking someone's money isn't worth 10 pages of people saying he is a scammer. If he does it enough and enough people report, there is always the chance someone doing something about it - what what happened to this kid: <https://hackforums.net/member.php?action=profile&uid=1455008>
