Vouch for Caesar, he taught me this method a while ago before he published this and I've made \$1000 already through this, and I just started this month! I somewhat animated him to publish it instead of just teaching it, since I think more people should know about this, therefore huge suggestion for the ebook and vouch from my side!

Droganan - August 12, 2014, 1:43 am

There is no information about what this is or isn't. The vouch doesn't really help as it doesn't explain much of anything. Just somebody screaming oh god yes I love this shit and they aren't very reputable.

Does this involve selling, ebay, amazon, ppd, cpa, etc? Is this blackhat? Social engineering? Gambling? Are there multiple ways to get paid?

I'd also like to know a bit about this method of yours. Very low quality post as it has NO info. Adding to Droganan's question, how long until the method gets saturated? Any money back guarantees? Any support? Etc.

Caesar - August 12, 2014, 9:00 pm

It is not illegal therefore not blackhat.

It has nothing to do with Social Engineering.

No gambling.

No ebay.

Whatsoever.

It involves free trials.

This method won't get saturated - infact the more people doing this the higher the payout.

Support you will receive, once ordered you will also get full informations on where to go with your future questions.

If you provide me proof you did not made money using this method, I'll give you a full refund after 2 months.

Thats as far as I can and will go, all the rest is pretty much explained inside.

If you are not interested, that's fine, don't expect from me answer on everything though.
