The animation is really good and smooth.

Good color choice.

Really like your style.

The particles and fireworks fit in well.

Maybe a bit too much purple.

Fiora - August 14, 2014, 2:18 am

Make a full sized 1080p one. It'd be my background forever.

He answered above you, AfterEffects. :P

Anyways, amazing work. Smooth animations with really good colours. There's nothing I don't like about it. I love the fireworks the most.

MurderTheMedics - August 15, 2014, 10:28 pm

very simplistic and clean animation. Attention to detail on the fireworks and building is amazing. GJ :)
