Thread: [How To Make A Thread Divider \[Ryan / Tutorial / #1\] BEGINNER](#)

'Ryan - August 12, 2014, 10:25 pm

Today I will be showing you how to make a thread divider like the one below!

Step One

Spoiler ([Click to View](#))File>New and change the size to this

Step Two

Spoiler ([Click to View](#))

Select the line tool and place a long line in the center of your rectangle like so.

On the top change the settings of your line to this.

Feel free to change the fill to whatever color you want your line to be.

Step Three

Spoiler ([Click to View](#))

Select Filter>Blur>Motion Blur and change the distance to 125

It should now look something like this

Step Four

Spoiler ([Click to View](#))

Add anything to the middle such as a logo or your name.

Sweet tutorial, Thanks for the share im trying this out right now.

Noctua - August 13, 2014, 8:09 pm

Thanks for the tut OP, I was looking for something like this.

Talu - *August 16, 2014, 3:44 pm*

Your tutorials are very good, keep it up.

Kam Games - *August 16, 2014, 6:13 pm*

Thanks for the tutorial, I was tired of searching thread dividers... Thanks mate.
