Thread: [Suggest A \(Non-Flat\) Theme To Make! \[Stopped due to school\]](#)

GenericSkid - August 13, 2014, 2:29 am

I have some time on my hands and am thought since Earn is doing mostly only flat themes, why not I do non-flat themes?

Edit: School started back up, so I'll be going much slower, but I (and/or some other people) will eventually get these all done.

Past themes I've worked on ([Click to View](#))

(Fake GUI. I never made a crypter)

I really like dark themes (But I can do bright stuff).

Queue list ([Click to View](#))

In no real order, but these are the ones I'll try to knock out. I may mix and match controls from multiple images (like I did in PV).

I know you said you like dark themes, but the top one you've posted, could you create something like that but in white/lighter colours? Looks amazing btw

VRUMM - August 13, 2014, 5:36 am

GenericSkid - August 13, 2014, 4:38 pm

SaketSaket - August 17, 2014, 10:35 pm

Once I get a few more themes to a release worthy state I'm going to go back and finish them up. Also going home later today (I really need to go to bed) I'll be working on Cry Engine when I get home if I don't immediately pass out.

GenericSkid - August 19, 2014, 2:24 pm

Lord Pankake> i like your Cry Engine theme.. its awesome ? thanks for your hard work.

Bruh - August 28, 2014, 8:13 pm

You've made some really nice themes! Why not try a couple flat ones that look nice and clean?

Earn seems to be the guy for flat themes. I really just don't like them. I feel they lack character or a general 'feel'. Therr are of course exemptions for a few that do show some style more than just a few colorful rectangles.

Cairns - August 29, 2014, 9:54 am

That blue one looks awesome (the one you added to the queue). Look forward to seeing that. Your work is good

Go ahead, it's not like anyone has the rights to a theme before it's even done. I'm still working on PV.

nuk - August 30, 2014, 4:15 pm

Dayum homie... PV is lookin' sexxy as fuck! I could actually use that theme in something I'm making at the moment ;) Great job!

SaketSaket - August 31, 2014, 1:38 am

PV theme is looking great... Your second progressbar looking awesome... nice concept.. ;)

GenericSkid - September 6, 2014, 8:57 am

Finished PV (PixelVision) and three essays I had to do for school! I'll try to get another done soon!

xherox123 - September 11, 2014, 1:44 pm

Thank you! Add me on my skype please: Thomas.vieveen (camel picture) xD

SnowreyHS - September 12, 2014, 9:46 am

Hey the WhiteUIhorizontal theme is a beast, but it is possible to make the bar thing work as a progressbar?

Tohka Yatogami - September 12, 2014, 10:19 am

I've really loving your DarkThemes! So far, I only use PV but I'm going to use the others on this

thread soon!
