Thread: [The Sonder Challenge](#)

Th3PonyWizard - August 14, 2014, 6:02 am

I'd like to challenge people here for a little fun forum activity. The challenge is writing and posting a tutorial in any technical field (Or gaming, computing, whatever) each day until somebody runs out of ideas. Minimal word count is 100. Anybody up for it? If you are, tell me and I'll write your name here. Should be fun

challenge participants:

Sonder

Cybele

Slimy

winner so far is Cybele

Sounds like fun, I might join in if I can find the time.

Aceman - August 14, 2014, 6:21 am

I like that idea and hope that you get a lot of people who accept this challenge. Thanks for being willing to make tutorials and encouraging others to do so as well! ?

Coincidentally, I've been considering this of late. I was thinking of mastering a section of Hackforums, and then once I know the section by heart, provide a tutorial/ebook of everything I've learned. This would prove useful not only to new members of that section, but to myself as well for I will have gained immense knowledge about the topic. Currently, I am starting with the most simple of hacking and moving up. I'm going to learn everything there is about E-Whoring, every single fucking method there ever is, and then create some new ones myself. Then once I'm a master of E-Whoring, give an ebook of my knowledge and then move on to the Viruses, Worms and Malware section of Hackforums. Eventually I will know everything. :)

Seems like a cool idea, wonder if anyone will join though D:

I won't as I don't have the time but good luck :)

Every tutorial I make is buried. Even when they're really good.

That's actually true. Mine gets buried under help threads. The only ones I see alive are ones that people actively use or help them get money :P

Slimy - August 19, 2014, 3:29 am

Seems like a great idea! Count me in man!

Th3PonyWizard - August 19, 2014, 3:49 am

Due to the rised interest, we're on again.

NickK - August 19, 2014, 4:01 am

I kind of want to get in this. Will be posting something later today.

Slimy - August 19, 2014, 4:16 am

I'll be putting a tutorial together soon, it'll take a short-while though.

Two week old thread.

I'm going to assume this challenge fell through spectacularly, since I see a total of two tuts posted here, and both are by different people lol.

I still fucking got this.

I'm rather competitive.

I'll break their 2 weeks worth of threads in 3 days. i.e (14 tutorials)
