Man of Commerce - August 15, 2014, 8:46 pm

eBook:

Chapter 1.

Don't buy eBooks.

Chapter 2.

Make an eBook, get friends to vouch, sell hundreds of copies.

Chapter 3.

Whore normally, use BM if you want a little boost.

DONE DONE DONE.

/s

Seriously. Don't buy eBooks. Don't hunt for methods. Literally. Find your own.

M?gic - August 15, 2014, 8:53 pm

I wouldn't say this is true. Yes, I make extra money off my eBooks; however, there ARE real unsaturated methods/locations on this marketplace. I sell them myself, and I have plenty of contacts who do the same.

This is true, but it isn't. I've spent around \$100-200 on eBooks and didn't make a single penny from them. I recently bought Top Tier Whoring and made over \$100 + in 1-2 days.

From saturated methods alone, I've made nearing \$200 in 24 hours. And I'm only testing around. All eBooks are supported. HF literally has it's own "lobbying" system.

I never said that saturated methods don't work. I've made way more than that from saturated methods, but unsaturated methods are more persistent. You'll be shocked to see how much you'll be able to make when using unsaturated methods.

Known methods and blackhat methods make just as much. e-Whoring isn't about the methods, its always about horny guys. No one ever mentions it; but "methods" are just new "gateways". EDIT: Asked a guy for a review of your eBook and hopefully we will get back to me. Can't slam the business but I can call it out...

All ebooks are shit. Doesn't matter if your trying to learn how to e-whore, SEO, or other money making tips.. Most of the e-books are just rehashed because people want to make money. For example, if someone claims making \$500 a day why the fuck would they make an ebook and sell it for \$10 dollars a pop? Either the method is not working anymore or it's some rehashed shit just to make money. Sure you can learn something from an ebook but don't plan to earn as much as the ebook claims following it step by step.

10/10 thread.

Ebooks on ewhoring are frm fraudulent shit fucks.

gbcCanadian - August 16, 2014, 8:43 am

Lol can guarantee that. I bought an e0book about 2 months ago, was the one that showed bluestacks and kikfriend, now it's posted here word for word FREE in the ewhore section.

Thanks, worked for me. I'm a millionaire now. VOUCH

M?gic - August 16, 2014, 10:04 am

I completely agree that methods are simply new paths to take to the same destination; however, some work better than others. Mine uses no VCWs, and it much easier to pull off flawlessly. Is that not worth using over another method?

Since when did this thread turn into a marketing thread for your e-book? Please take your sales campaign somewhere else.

On topic: E-books are a waste of time. If the authors were making \$500 a day, they wouldn't be selling it to make it saturated.

By no means do I need a campaign thread LOL I'm doing just fine on sales. I'm using my personal experience to speak in opposition to OP's beliefs. The day debate becomes looked down upon this becomes communismforums. Use your brain before posting please.

Xaxifer - August 16, 2014, 7:45 pm

lol sometimes it does feel like it is that way.

Man of Commerce - August 16, 2014, 8:01 pm

Andddd just found out this "unsaturated" method. It's fucking common sense. As in, upon a search, it's definitely been spoken of. I won't ruin anyones sales by exposure but I stand by my statement. eBooks are for profit, not expansion of knowledge.

It said 'I want more sales' all over it bro.

Haha just because people are dumb enough to not know your method isn't unique.

natesta23 - August 17, 2014, 5:11 pm

What is BM? I'm curious, And what if your ebook ends up similar to others? Couldn't you get in trouble?
