Thread: [Weird Profile Pic for Omni on Phone](#)

Happeh - August 16, 2014, 3:25 am

Just a weird bug which I feel is happening just to me. This is only happening to Omniscient and just on android phone. Here's how it looks:

It looks like some sort of crane or construction vehicle with Arabic watermarks.

Very interesting, maybe any scripts you are running?

SoulZeh - August 16, 2014, 3:44 am

Try deleting your cache and whatnot on your phone, could be just a error.

You've found out the true secret behind omni! Well done.

?

It's just happening to you. Try using a different browser or clearing your cache.

Happeh - August 16, 2014, 4:33 am

Cleared cache and fixed it. Really weird but whatever.

Thanks everyone. :)
