Looks nice besides the top area. Portal is semi-invisible because of the yellow sun or whatever it is.

I know I missed a few things when translating the theme.

This forum might be a good forum, but your actual style is... not terrible if I can say it like that. Good luck for the future b.t.w.

(Sep 15, 2014 10:01 PM)Jet ? Life Wrote: [\[CITE\]](#) Any ideas on how I could improve the theme? You can change the theme, maybe buy one. You can also add custom style to this theme to look better. Myself, I would like to see a bigger width than the original which look bad...

I think the violet color is not that beautiful, even if it's all around your forum...

I don't know about working on a theme from myBB, but I guess that's easy to do while knowing some CSS basics, because I worked on a lot of Xenforo forums, and making a decent theme on those ones was easy to do.

Regards,

(sorry for my bad English, this is not my own language)

I expended the width and I didn't seem to like it, maybe I did it to big, what do you think a good

width would be?
