Disclaimer: I received a copy of this ebook to review. What follows is my unbiased, complete, honest review.

About this review:

This review is divided into sections, with each section weighted appropriately to the overall score.

Product Name: Instawhore Private v2.1

Normal Price: \$30.99

Pages: 24 total, 22 pages of content

Content: 10/10 (50% of total)

The sheer wealth of information in this ebook is extraordinary. Filled with multiple methods, and jam packed with tips, this ebook is the pinnacle of ewhoring, an area I've always avoided because of lack of motivation, and confusion that this ebook has since eliminated.

Layout: 5/10 (5% of total)

The book is clean, but feels more like an academic paper in terms of layout. It's not a bad thing, but it's not overly pleasing to the eye.

Clarity: 9/10 (25% of total)

This book is detailed. When I say detailed, I mean it. There's lots to be learned, even if you're experienced in ewhoring, you might pick up a trick or ten.

Value: 9/10 (20% of total)

You're lucky to find anything comparable for the price. Especially if it's on sale. It's a great value, and I recommend it.

Overall: 9.30/10

From the amount of content that was put into this e-book, we can verbalize that the quality of this guide was not too shabby. The author included many details within each subtopic and elaborated well upon utilizing E-whoring implements.

This e-book is extremely easy to follow. The author contemplates each procedure in a way that would allow the reader to quickly go through the process instead of having a long drastic guide that is uncomfortable to follow. It shouldn't be an issue for anyone who does not have any experience with E-whoring.

The layout is extremely poor. The author could have adjusted some flow of color/font utilization in order to give a good blend with the plain white and black background he provided.

There were multiple grammatical errors and missing punctuation's, although, it shouldn't be an issue for anyone to read.

After multiple Google searches and research throughout the net, I have yet to see any content public, therefore, this e-book is indeed original.

[img]<http://i367.photobucket.com/albums/oo119/mistahellfire/notes.png>[img]

The way this author puts this e-book together, he/she makes it feel so easy. I've never seen E-whoring be that easy. :)

Good luck with sales!

The quality of this eBook was good. The author went into detail on almost every topic.

The methods in this eBook are not hard to follow if you already have experience with eWhoring.

The layout of the eBook was not very good. Quite a lot of the information is clumped together and hard to read.

There are a few grammatical and spelling errors, but none that effect readability.

While eWhoring itself is not original, the content of the eBook is original.

Awesome man. There is just limited copies of this going to be left for sale... get it while you can

Dickbutt.scr - August 23, 2014, 9:06 am

Bought the ebook, here is my review

Grammar: 5/10

There are quite alot of grammar mistakes which are irritating to the eye

Originality: 1/10

The methods are some known, and basically if you would surf on the ewhoring section for 10 minutes you could see the exact same shit that is in this ebook

Ease of Use: 9/10

It's really easy to do so, since well, it's simple and effortless

Overall: 3/10

As I said the methods are WELL known, like, surf the ewhore section and you already know them, I do NOT recommend to buy this ebook as it's literally utter shit and I bought the premuim package in hopes of a new unsaturated method, seems like I am wrong

Won't get my refund too tho

Target™ - August 24, 2014, 10:17 am

Online and able to take sales, get it while you can limited sales left.

I think the OMC project leader and a person with 1400+ rep with no scam reports is more trusted than a person w/ a scam report and banned. :)

Shouldn't even take my time posting about your noob self lol

Correct, everyone does have their own opinions. I rather not spend time dealing with a dumb noob though who believes a banned/scammer :P
