Thread: [1/3 of my mining rig 437khash/s XD](#)

?????? ???? - August 21, 2014, 2:52 pm

This is my new rig. it has 3 GPU's on it all nvidia.

I also have a gtx 750 ti i have running as well as a blade server which hits about 60 khash/s running cpu mining.

SHIFT? - August 21, 2014, 2:53 pm

Fix the image I cannot see it.

It looks nice congrats op

?????? ???? - August 21, 2014, 3:02 pm

done sorry about that. didnt know it was not allowed?

??Zèp* - August 21, 2014, 3:03 pm

Holy fucking rig bat man, I like it. Have fun making some money with it, what are you mining?

?????? ???? - August 21, 2014, 7:44 pm

currently omnicoïn. as soon as i get the award and and stock up to buy things on hf i will switch over to a smartpool updated with my khash/s

Ch1m4zz - August 21, 2014, 10:07 pm

What did you pay for this rig?

And nice looking rig

Pillows - August 21, 2014, 10:08 pm

Uhhh I'm not sure if it's worth mining with that hashrate though.

Aceman - August 22, 2014, 5:10 am

This is what I was thinking. In a multipool you'll be making nothing considering many AMD cards beat that hash rate on their own.

What's the predicted hash rate for the cards you're buying and how much did you pay?

Ortek - August 22, 2014, 11:26 am

Im just wondering which asic cards that might be, the only one's that are ever announced are scams lol

N???e?o - August 23, 2014, 3:22 pm

Just asking but how much did that thing cost? :D

Zher0 - August 27, 2014, 3:59 pm

Damn man, that's sick. You should put the costs for the components in the first post.
