Thread: [Cool line pattern for added detail SIMPLE \[Ryan / Tutorial / #6\]](#)

'Ryan - August 21, 2014, 6:47 pm

Hello and welcome to my tutorial!

Today our topic will be: Cool Line Pattern

Below is an image of the pattern added to a signature

Let's Get started shall we?

Press File>New and create a new document

Make sure it is set to 5x5 pixels and transparent background

Spoiler [\(Click to View\)](#)

It's going to be really tiny so select the zoom tool (Press z) on the bottom of the tool bar.

Now right click the little white square you have on the middle, and select "Fit to screen".

You should now be able to see the 5x5 pixel box

Spoiler [\(Click to View\)](#)

Select the pencil tool from the toolbar (8 Down), select black as your color, and click in the 5 boxes from bottom left to top right.

Spoiler [\(Click to View\)](#)

Press Edit>Define Pattern> Type in "Line" > Press ok

The pattern is now complete

Applying the Pattern

Go to the image you want to put the pattern on

Double Click it

Select "Pattern Overlay"

Select the pattern you made and press ok!

Done!

My name was Prim on another site. ;)

Thanks for the small tut guy

P.S. : Edit this : "Make sure it is SEX to 5x5 pixels and transparent background"

Ryan - August 22, 2014, 9:36 am

Cool guide. I'm probably not gonna be using it but I'm gonna save the link incase.

Also my name is Ryan, so thats cool.
