Thread: [Can't remove extension "parieCecchoP" \[SOLVED\]](#)

theAbsolute - August 23, 2014, 8:20 am

On Chrome browser I have this wierd extension somehow installed, but I am unable to remove it.

Does someone knows what is it at all and how do I get rid of it?

I've removed it from programs and ofcourse tried deleting from extenstion list, but it's still there.

Download and run [Junkware Removal Tool](#). Once done, copy/paste the content of the output log here.

Good good.

Is that extension still there or not ?

theAbsolute - August 23, 2014, 8:56 am

Confirming that it has been deleted.

May I keep these two cleaners, I like them :)

You can keep them, but I would suggest you to only download them when you need them. These tools are getting updated weekly, if not daily, so if you use them in two weeks, you might already be a few versions behind.

Thanks for the tip!

I will do that then.
