Thread: [How to get great Hackforums Avatars](#)

Eeluminati - August 23, 2014, 7:07 pm

Hi there, this is how you can get a unique avatar for HF in the correct max size!

1. Go to Google images by searching anything.
2. Then click search tools.

3. Then go
Size>
Exactly..>
120 x 150

4. Search a word and pick an awesome picture for your new avatar in the perfect size for Hackforums!

You can find some really unique stuff, this is what I got when I searched 'man'.

Or we can all just copy my avatar? Mines the best one on HF... or so Ive been told. I think only one other avatar beats mine though.

It would be the best if you actually made it.

But you're just a Skid ?

haha.
