The first one is great.. it just needs more pictures and videos. The second one has a hot face but a nasty body soooo I don't know how you could make much out of both. First has some long videos though, good luck with anyone that tries these!

Roxy - is my best seller right now...

I made \$40 out of 10 pics with her, and didn't even send her videos.

In all reality, even if it is lower pics it may help get that \$10 - \$20 range, you just got to use that "SE" skill to get that with either.
