Thread: [\[\\$8\] Arma 3 Script Execution Method | Scripts Available | Limited Copies | AUTO BUY](#)

Integrity™ - August 24, 2014, 1:21 pm

I am selling a script execution method for Arma 3 which allows for the execution of scripts without being caught by Spyglass or BASIX.

Method only: \$8Support setting everything up. It is not very hard, but if necessary I can provide assistance.

Method + Scripts: \$12Asylum Altis Life: Add talents, heal, remove pain, add money & map markers.

Other Altis Life servers: Asylum Altis Life: Heal, add money & map markers.

Generic: No recoil, god mode, map markers, infinite ammo and map teleport.

Any future scripts I come across or create myself, more specifically for Asylum.

I am more than aware many of these types scripts are available publicly. These have been edited/improved to ensure no detections by server variable and function filters.

Purchase links:

Method only: <https://sellfy.com/p/gBMV/>

Method + Scripts: <https://sellfy.com/p/3IEW/>

I am NOT responsible for any bans/kicks you receive. I am however quite confident this will remain undetected for quite some time. No refunds will be given under any circumstances.

NO vouch copies will be given out. I am only selling a limited amount of copies; I want to keep this method on the down low to protect myself and my clients.

This method is still for sale. PM me for more information.

Integrity™ - September 14, 2014, 9:54 am

Method still for sale, undetected and fully functional.

Integrity™ - November 8, 2014, 7:13 pm

Method is STILL for sale. Contact me w/ any questions.

Silv - November 8, 2014, 7:17 pm

Does it work on Olympus, Grimm, EpiX?

rabeks - November 8, 2014, 8:26 pm

Im really interested. If you could show me in action ill probably buy.

Integrity™ - November 20, 2014, 5:18 pm

Still for sale, still functional and undetected.
