Thread: [Free VPN | Automatic Account Creation - NL/USA - Netflix - No Logs - Stats](#)

Nieeli - August 26, 2014, 12:10 pm

OffshoreBox is offering all members a FREE VPN located in the USA (New Jersey)!

Old thread: <https://hackforums.net/showthread.php?tid=4383575>

Stats:

[img]http://199.195.251.99/vpn/img/stats.png[/img]

Updated ever 15 minutes

How does it work?

You choose an username and our VPN tool will generate an account for you. The account will be terminated after 24 hours but feel free to create a new one!

Note that this is still in beta and the tool just launched. Bugs can arise and downtime is possible. Depending on the amount of people using this and how you guys like it more locations will be added. OpenVPN is being used for the VPN. There are no traffic logs.

Terms of Service

- No illegal activity
- Don't abuse the network
- No torrents or any other bandwidth intensive activities (netflix allowed for now)

I've got a question so I'm going to PM you it so you can see it.

Squeemish - August 27, 2014, 12:14 am

For me it isn't working , I need a VPN. Sooner you get it running the better ^_^

What do you mean by this? Is the VPN not working for you?

TerminalOne - August 30, 2014, 4:16 am

Doesn't seem to work unfortunately.

Can you send me your connection log? The servers are up and working.

Nieeli - September 3, 2014, 5:28 am

Would be nice if some people could post a speedtest :).

Nieeli - September 27, 2014, 4:54 am

The free VPN is still up and working :).

Firenet - September 27, 2014, 7:26 am

thanks for the vpn . nice give away . keep it up . you put up very good 24 hour expiration system on vpn . it sure make less stress on vpn server .

Polso33 - September 29, 2014, 1:00 am

Which is better OffshoreBox or FrostyVPN, what are the differences?

niethateboy - September 30, 2014, 6:24 am

thx for this Vpn but its not working i can still see my isp XD

Nieeli - September 30, 2014, 9:05 am

Make sure you run OpenVPN as administrator.

Polso33, see for yourself :). We don't limit connection speed etc and the VPN is of high quality. I don't know about FrostyVPN.

Is this a common error? I can't connect to it.

Great service guys. I appreciate you guys giving it away like this. I tested it out, has a little more latency than I'd expect, but it's fine for normal typical use.

Cant believe theres an actual free vpn which is that fast..
Its barely an mbit lower than my regular connection.
Though how is it free? Logs?

Zeivu~ - October 4, 2014, 5:06 pm

Vouch for nieeli thanks for giving us a free vpn
also does anyone know how to make your skype unreasonable
their is a new skype api update so skypes can get resolved

Please show me the connection log, not the error.

This doesn't cost much for us to run. We are going to advertise our paid VPN on the free vpn website soon.

This is very good offer! Best among free ones :)

Are you planning to keep it free in future? Are you REALLY not keeping logs?
