Thread: [Benefits of HF 3P1C compared to Ub3r?](#)

Charlie Kelly - August 26, 2014, 7:03 pm

Are there any additional benefits on top of Ub3r?

What are they? is it worth it? I couldn't find anything in the [Help Docs](#) to explain the additional benefits (if anything).

Cheers.

So far, I've only noticed the increased private message space.

PM can hold alot more messages etc.

Can sell in OMC only marketplace forum.

Not sure what else, but obvcourse there is or UB3R's wouldn't be buying it.

Omni hasn't released the features as of yet. I'm only aware of more PM space, and a few features Ub3rs already have.

We bought it in the hopes that more things would be released in the future :^) We're still waiting for them.

This is where you buy it from. And you need OMC to buy it.

This is probably the most helpful thing I've gotten from the thread. Thanks.

So, by the sounds of it, more features are likely to be released for 3P1C. Anyone know what they are?

SlyTaco - August 27, 2014, 6:07 pm

Omni said many features were going to be added soon, and allowed people to "preorder" it. That was months and months ago and still no word.

I didn't even buy it, but it pisses me off.
