Yup, so I spent four hours making these. There are 60+ high quality gifs for use as forum avatars. Each is 100x100 and in good quality. Most of them are Kawaii and do have my personal taste involved. Here are some screenies:

Wow, theses are really well done. I don't suppose you have any of Tsukiko (Henneko) or Shinobu (Monogatari)?

Looks good and like BH mentioned, really well done. I doubt I'd use any though, but hopefully you can help find me a good Revy avatar that I can use. ?
