What is Cybergate ?

Cybergate is primary a company of Security, Hosting and Administration Tools, Cybergate is not a team of coders like Spy-Net but the source code and pictures of hey softwares is very similar.

Cybergate R.A.T

Cybergate r.a.t is more reliad then Spy-Net for Webcam, Password etc.. : source code is more strong (Delphi).

I'm sorry I don't think people are going to trust a download from a new user, it's also disallowed to try to infect members of HF.
