Thread: [Looking for instagram bot \(description inside \)](#)

Pimps - August 28, 2014, 5:43 am

I'm looking for a bot to make this kind of things.

Logging into an account

Liking the first picture of another account (always the same)

Exiting from the acc and logging onto the next one.

Maybe... if possible... also a bot who auto-generate a XXX number of accounts.

1MPERATOR - August 28, 2014, 5:43 am

Those programs do exist, the only problem is... account generator... will cost some big money!

Pimps - August 28, 2014, 5:47 am

For account generator i can do manually... i just need 100-200 accounts, not more

I can provide likes/followers...

Just a tip.. if you only want 100-200 accounts .. Buy those, not the generator. Would be way cheaper!

Pimps - August 28, 2014, 6:04 am

i found 40\$ for 200 accounts... i think i can do by myself in 1 hour ^^

Niely - August 28, 2014, 6:12 am

Just get an auto-clicker/spammer/click-bot/...

Let them click the buttons for logging in and clicking the likes etc. :)

Pimps - October 7, 2014, 8:52 am

any news about my request?

The main request is an autologger-liker bot.

I can generate tons of accounts by myself
