Thread: [How I redeem \\$5 Amazon gift cards Everyday](#)

rogeroman - August 28, 2014, 9:14 am

Hey guys! So recently, I've been using a app called Perk TV. The app is on both android and the apple store. On this app, you get 4 perk points for every trailer/video you watch. Now these videos vary up to 2-3 minutes. To cash out for a \$5 amazon gift card, you need 5000 points. Now, I'm going to teach you how you can get 5000 points in one day. To do this you need a Jailbroken iPhone. I don't know how you would do it on android but I'm sure you can figure it out. By the way, you can do this method while sleeping and literally doing nothing but keeping your iPhone running.

Follow these steps:

Spoiler ([Click to View](#))1. Make sure you have a Jailbroken iPhone otherwise this method is not for you.

2. On cydia, download an app called Fast forward. You can google the repo and stuff.

3. Now download an app on the app store called Perk TV.

4. Go to your computer and go to Perk's website. Link: <http://www.perk.com> and Sign up for an account. Do not sign in with Facebook. Make an actual account with your email. Make sure you sign up on the computer.

5. Go to the Fast forward app and it's going to ask you which app you want to use fast forward for. Turn it on for Perk TV. Then go to the settings and set the Playback rate to anything you're comfortable with. I use 50 but it all depends on how fast your internet is. You can start from 20 and go up till you're comfortable with the speed.

7. Now go back on Cydia and download a app called Insomnia Pro. Once you download it, activate it and exit out of it. This app will allow your iPhone to stay on overnight and still use the wifi and watch the videos.

8. Now you can go on PERK tv app and sign in. Once you sign in, Go to watch videos. You'll see a big difference. The Fast forward app will increase the videos speed so that instead of waiting 2-3 minutes, the video will finish in 2-3 seconds.

9. Now sit down and relax and watch the points come. Leave it on overnight and throughout the day.

By the way, you don't have to cash out Amazon. They have different gift cards as well.

Enjoy this method! Also, please do not put your speed over 100 on the Fast Forward app.

afk0 - August 28, 2014, 9:17 am

Seems like a nice method, going to test it on one device and if it works I have like 10 ios devices that I can run all at the same time :P

Echt - August 28, 2014, 9:19 am

How many points do you get over night? I am debating on if this is worth me jailbreaking my device.

rogeroman - August 28, 2014, 9:25 am

Overnight, I get around 700-1000 points. Then, throughout the day, I get the rest of the points. I don't even touch my iPhone. It works the magic all by itself while I relax and do what I do. At the end of the day, I redeem the card and then the same thing the next day. By the way, they send the code to your email in 24-48 hrs.

Cool cool. Well good luck earning some points bro.

t0rch - August 28, 2014, 9:29 am

I did the math and with the information you gave us I could receive 23.04 gift cards per 24 hours. \$115.20/day, \$806.40/week, \$3225.60/month, \$38707.20/year.

Are you sure those numbers are correct or do I need to go get an iphone? c:

LOL. Well, you know what I meant by day.

Also guys, you can go on their website from your computer and do the surveys. I just did 2 surveys that finished in 10 minutes total and got 300 points for each.

Limited Edition - August 28, 2014, 10:18 am

I did this method a while back (without the jailbreak since I don't want to void my insurance) and it takes a while. You have to have the program open and running 24-7 BUT it is auto-pilot, the moment you close it, it stops earning. Your battery will run down quickly so I suggest going to settings and turning the brightness right down, also leaving it on charge (although this will eventually fuck up your battery)

Also, if you are from the UK (and I assume anywhere in europe) you only get 2 points per video so it will take you twice as long as the US users.

It may be good for \$5 if you are desperate but you will spend more than that on electricity charging your phone lol.

SHAY - August 28, 2014, 10:27 am

Vouch for rogeroman, This method works 100%.

Internet Explorer. - August 28, 2014, 10:31 am

Thanks for this, I'm jailbreaking it right now ?

Damn, I can't jailbreak my iOS 7.0.3 iPhone 5 ? - I think I'm a noob at this.
Evasion 7 just closes down right before finished installation, damn.
EDIT: Now using a guide.

EDIT: Now using a guide.
Just use the jailbreak I use. Go to youtube.com and type in How to Jailbreak iPhone 5 Pangu 7.1.2

willvxd - August 28, 2014, 6:08 pm

Thanks, trying it out right now.
You haven't been banned using this method?

rogeroman - August 28, 2014, 7:49 pm

(Aug 28, 2014 06:08 PM)willvxd Wrote: [\[CITE\]](#) Thanks, trying it out right now.
You haven't been banned using this method?
Nope. I've redeemed 3 gift cards without being banned.

5150 - August 29, 2014, 8:51 am

Thanks, I'll be trying this method when I jailbreak my iPhone!

XeX Menu - August 29, 2014, 8:53 am

Posting on here to check this out later and see if it works on my jailbroken ipod.

You haven't been banned using this method?I have seen this method before and it has been working for quite a while.

ice27 - August 29, 2014, 9:01 am

any android method? cant find my iphone

loop0100 - August 29, 2014, 10:30 am

Thanks for the share! This works so well.

DeadAdventure - August 29, 2014, 10:45 am

Thanks for the share, truly does work.

rogeroman - August 29, 2014, 11:29 am

(Aug 29, 2014 10:50 AM)hahaha123 Wrote: [\[CITE\]](#) Is this for all country ?? or no ?

//35 charr

It works for US and Europe but I think for Europe you get 2 points for every video you watch instead of 4.

Rabid_Rooster1 - September 15, 2014, 1:31 pm

This is a really useful method! I am already receiving a ton of points from it! Thanks!

Th0wz - September 16, 2014, 11:10 pm

Just checked out google play store for the apps and they dont work with HTC One :/

quanmon - September 16, 2014, 11:13 pm

You my friend are officially a mobile god

JANUS. - September 17, 2014, 3:56 am

seems really nice

i will try this out

thanks for sharing

IntraGizmo - September 17, 2014, 5:31 pm

Thanks a lot OP!

I am going to work on getting more \$ with this.

I'll update if what i do works!

labroca - September 17, 2014, 5:52 pm

I can vouch for this method, I did this kind of thing when I was younger with AppRedeem.

Just don't overdo it or try to do it too fast, they get suspicious and will ban your iPhone UDID.

Purps - September 18, 2014, 11:28 pm

lol perkTV has been banning accounts and not issuing payouts to people they catch using fast forward because it breaks their tos. Best to just run perk on as many devices as you can.

ImChivalrous - September 19, 2014, 8:19 am

?

A lot of people would say, Perk just went down the crap shoot because legitimate users are now suffering and leaving them too.?
