Leave it blank if you want me to pick for you.

Code Text: (text you want)

Font: (font you want, I wont use your font if it is ugly)

Size: (size of the text)

Background: (background color, image, or transparent)

Shadow Side: (both, right, bottom, none)

Text Color(s): (If you pick more then one, I might not use it)

My sig is an example, I might not use the same animation.

Just doing this for fun. I will probably make you multiples.
