I need: BTC

Amount Needed: 400\$ (I have 400+\$ in paypal wallet, I don't know the conversion rate and will even go first with any method/note and any since you look so trusted honestly)

Do you accept T.O.S.: Yes

If you look at my past posts I've had 6/6 scams for exchanges and I really want BTC and wish more people would accept paypal but these scammers mess everything up.

Most reputable exchangers have just ignored my PMs (idk why). The -rep I have was from the scammer Strike who I made a legitimate scam report about if you wish to look it up but I got my money back.

The link is here: <https://hackforums.net/showthread.php?tid=4125209> and yes I apologize for being a noob at scam reports back then lol.

My PM to you a few days ago was ignored; I hope for once a reputable ex-changer actually doesn't ignore me for once, thank you in advance...

Edit: I was informed high rep exchanged ignore because of the large amount of PP money, if this is a problem I can lower it to an acceptable amount, I just need BTC for proxy lists.

I don't have a verified paypal, and I'm not Ub3r.

I currently have \$13.51 in PayPal Balance and would like it transferred to BitCoin. Would be happy with your rates.

I'll gladly go first. If you wish to use a middle-man, I'm up for that too.

I've never had a community alert or scam report open on me, although I've done very little payments on-site.

If you wish to supply me with BitCoin for PayPal; that'd be great. If not, please reply and I will find somebody else.

Cheers.
