I vouch for this product.Very HQ and working.I have been using it quite some time and dont regret it.

Keep up the updates and great support.

Buy it,you wont regret it ;)Butt Cheeks. Wrote:Just purchased this, and started running it around 5 minutes after purchase.

Bot is so smooth, runs like a charm. It runs better than any instagram bot I ever had. This thing works wonders.

Within 5 minutes, these are how many people have followed me!

<https://i.imgur.com/BGJHWLz.png>

This thing will work wonders.Charger Wrote:I run this every other day and I have gained AT LEAST 400 Followers in the past 2 weeks.Cudi* Wrote:HUGE VOUCH!! This program works flawlessly and I have gained a few thousand followers from it so far!Krave Wrote:Just bought this, it is a great bot and I would recommend to all!

Had 3401 followers to start with, ran for 5 mins and now have 3440!

<https://gyazo.com/f1660268d68fd947a03be796e8a8a086>Biggie Wrote:Amazing product. Just started using it about 20 minutes ago and I'm at 100 followers. Huge vouch, totally worth the money Krave Wrote:Been using this bot for a while and I have to say it is decent ;)

Balloon Wrote:Huge Vouch for Lajcik and his program TweetUp!

I bought this program two or three days ago.

I am impressed thus far, everything works smoothly and it uses little to no CPU.

I started at 946 followers and now I have around 1237 followers. All of which are real and are actively clicking my links in my tweets that go to my website.

Lajcik has the best support and is often online.

Do not hesitate to buy this product, buy now before the price goes up!Louiz Wrote:Just purchased

this, works like a charm! Great work! Thanks for selling!Xousist Wrote:Jesus Christ this software is good, i pretty much auto piloted 30 REAL followers while away from my computer, all from a gaming niche (not follow4follow). Powerful software at a reasonable price.Savant Wrote:Vouch for lajcik and TweetUp! GLWS.Xousist Wrote:Using a female picture pretty much gives you a 1:1 ratio on follow backs.

Astrala Wrote:The program's running great, went to the gym and came home without any problems. I'm at almost double my previous followers, thanks man.Roytoy Wrote:I got this bot, and It's really awesome. I just tried it out and and It works smooth as hell and I didn't have problems with it at all. I ran it 2 minutes ago and It got me 10 real followers.

Good luck lajcik! very HQ bot!Balloon Wrote:Glad to see this got some updates. I used it last night and pulled a few sales because of the software.SoldierX Wrote:I can vouch for my mate and his services, legitimate and trustworthy. ?Roytoy Wrote:I created this account the day I received this bot, here are the statistics!

Eclipse™ Wrote:I'm using the bot to gain targeted followers ans it is working great. I have been gaining a steady 500 followers a day in a narrow group so I don't see why someone couldn't earn close to 800 general followers a day.Balloon Wrote:Awesome software.

I am using this on a new twitter for gaming followers and it is working like a charm. I have 273 followers in around 4 days of running the bot.Balloon Wrote:Awesome software.

I am using this on a new twitter for gaming followers and it is working like a charm. I have 273 followers in around 4 days of running the bot.Balloon Wrote:I am now at 317 followers.

Remember people that targeted followers are the best followers.Bloxorus Wrote:Vouch for this! I bought it last night and so far its been great!

I had a small issue but was able to get some help to resolve it extremely quickly and easily!Zollow Wrote:I can vouch. Love this program, gets the job done & I haven't had any issues using it.

FAQ

Spoiler ([Click to View](#))

1. Can I use the software on Linux or Mac?

- Yes, but you will have to use a VM with a Windows on it. Program needs .NET Framework 4.0 to be opened.

2. Can I use the software on more than 1 PC?

- No.

3. Can I like 2000 pictures/hr with it?

- No. If you ask that kind of question you should try to understand Instagram better.

4. Do you guarantee that the program will work?

- Program works as it is described. Although you should know that Instagram has got it's strict limits.

5. Is it refundable?

- No.

6. Can I leak it?

- No.

7. Do you store the account's data somewhere, so people can know what my Instagram username is?

- No.

8. Please give me a 1 day trial!

- Due to the security reasons - no.

9. Do you offer support?

- When I am online I answer to all of the questions connected with the software itself.

I vouch for Lajcik. This is the best Twitter follower software you will find. The price is unbeatable and

it has been around since 2013. You will not be disappointed.

Avion - September 2, 2014, 9:31 pm

Holy shit I love you man! I had a little trouble at first but the second the program started I got followers like crazy. After 1 min of using the bot for the first time and following 108 users I got these followers back

Best \$39 Ive spent. I have high expectations for this program in the future!

Update 48 60 of 108 followers followed back, so their is high retention with this method =)

Been using this on & off for about 6 months Here are some results (Started using it at 3500 followers this is the oldest picture I could find)

Before: After:

This program is great and I highly recommend it to everyone.?

Also, lajcik gives the best customer support you could ever ask for on a product, always happy to answer any questions you have and always willing to help you with any problem you have.

Support is top notch.

Have a suggestion? He will probably implement it just for you and release an update.

You want real followers or ones that are niche specific? This will do that for you.

Not to mention it's a one time fee as apposed to monthly installments.

You seriously can't go wrong.

just bought this & so far so good.

But one thing I would ask you to change is that it should SKIP over the people you already follow. because it unfollowed people I already followed when I used your bot.

Thanks!

For example, @MensFitness

In the follow options follow the followers of the people who @MensFitness because that way you know they are interested in your niche.

There is no need for proxies. He is going to be adding an import feature for accounts to follow but the bot works by signing into your account and following users that tweet the keyword you specify. You can also follow the followers of users in your niche.

I'll post on Lajcik's behalf again (he's from Poland, and probably sleeping).

I use this on every single one of my campaigns as well as clients. I have never once been banned as long as I followed the limits specified on the bot. If you are using the following function without delays and you get banned then that is most likely your issue considering the delays are there for a reason. To look and act like a human.

I believe Lajcik said this doesn't use the Twitter API either. Don't quote me on that though.

Getting this when I get paid, one last question tho will it get your account banned?

Using the program in a correct way shouldn't cause the ban on your account. Just remember to behave human-like at the very beginning of first days of botting. When your account will be older and will have more followers - Twitter filters are not that aggressive :)

I can say that around 1k followers makes you almost invisible for fast following banwaves. :)

Yeah, the program doesn't even touch Twitter API to do not make any kind of logs on their servers and so on.

Quick question, im not an expert on twitter so how does this bot work? i saw the first video and the bot starts following users, how doing that gives you followers, also why is the bot adding people to blacklist??

You gain followers because people on Twitter have an ego about themselves almost. They follow you back because they don't want to lose that follower. If you use hashtags like followback then that is their goal. To gain a follower and give a follower.

It adds people to the blacklist if you want it to. That is for later use when you unfollow everyone. That way when you run the bot again you aren't following the same users that don't followback.

Thanks, glad to hear that. It's only paid for the very old members since they've been using an app for a long time, and the price of the software is going to be increased very soon. That fee is just to disable an advertisement, nothing else. The feature itself works without paying additional money.

Question #1:

So by following people on twitter they tend to follow you back. When you unfollow them do they get notified that you unfollowed them and then they'd want to unfollow you as well?

Question #2:

If using the wrong settings here can your twitter get banned?

question #3:

Does this need proxies or excessive accounts etc? Consumable things to keep running this?

question #4:

Can I target people lets say who are interested in books? This way later on I could possibly sell them on books (books is an example)

THank you

#1. Yes, they tend to follow you back. And no, they do not get a notification.

#2. Yes, if your Twitter account is pretty new it can look a bit strange that you've got 0 Tweets and you're following A LOT of people in a short period of time.

#3. No it doesn't.

#4. Yes you can.

It can be done - of course, but what would be the purpose? While you either follow or unfollow at once, so you can simply clear the blacklist and load the whitelist before starting following/unfollowing again :3

Safari - May 24, 2015, 3:10 pm

Hiding the users you've previously followed but unfollowed will make it so that I don't annoy the other person.

I've followed them once, they didn't follow back, so I unfollowed them.

With this feature in the bot, it will not follow them again because it recognizes that they were followed in the past.

You can already do that and do not follow people who you've already unfollowed (that didn't follow you back). Just use the manager feature and make up the fresh blacklist which you will be constantly updating.

Hey lajcik, could you recommend me delay times for a new and old accounts? Say 1 month old and another that is 2 years old. Also, does the number of tweets on the account affect the risk level?

Please do PM me if you're uncomfortable with sharing it here. Thanks! =)

Hey man just got a question about this.

None of the other twitter bots in the market have this feature.

Account manager that can load up more than 1k accounts then retweets all tweets from a certain twitter user. and a trend scraper that scrapes all user with x amount of followers that doesn't stop in a certain amount of number and deletes duplicates.

lajcik - October 4, 2015, 3:16 am

@TR4D3

Unofrtunately my bot does not do that.

But if you will have any more questions I'll gladly answer! ?

lajcik - October 6, 2015, 12:07 pm

I have just released an update:

- You can now Tweet to the NEW followers of a certain user to convert traffic fast. It works exactly like the auto-tweeter but additionally for another people followers too now!

With any questions according to the update - feel free to ask!

?

On Twitter you have to be followed by the specified person to send a message.

It sends out messages to the people who followed you (so to the new followers) or you can send it to every single person that has followed you. You can also filter it to send a message to the x new followers. ?

Hey lajcik, I am interested in upgrading from TweetUp (your first version), may I know how much would it cost me?

I have a few questions about TweetUp2, what's this 'Cursor ID' that I see in the program? And also, is the auto tweet/DM fully functional this time without any additional fees to remove TweetUp advertisement? (\$15 fee in TweetUp)

PS: Just saw it cost \$25. Let me know how I can purchase this, as your website don't seem to have the option. Skype 'winsterous' if you need it.

1) Cursor ID - it is automatically saved when scraping, so when you scrape huge lists of usernames or whatever you do you can scrape from the exactly same moment in the next run of a program if you want to do so. It is unnecessary to be used.

2) Auto Tweet/DM is fully functional. In the TweetUp 1 the fee was only for very old users who purchased the program at the very beginning of the development of it since the update with auto DM/Tweet was really huge and was released for free as well there was an advertisement added. Those who didn't want to see it were asked to pay a fee. :)

3) To purchase an upgrade just let me know and I will proceed everything manually.

If you will have any questions - feel free to let me know! ?

You've been asking me via PM how are the results for the campaign I've been doing for my TweetUp account.

It's the result which was made in 7 days:

Another vouch for lajcik. Been using this since TweetUp 1 launched and it's one of the best value for money products I've used. My Twitters are worth a lot because of this product.

Do not hesitate to purchase this!

Thanks for your vouch Kravey :3

I highly appreciate it! ?

I hope that you enjoy TweetUp 2! ?

Just to let you know! In some cases I can trade a program license for CSGO skins if you don't have

money to pay with. Just let me know if you would like to make a trade.

Just to let you know - for now I do not need any more CSGO skins for the program licenses, maybe tomorrow I will be able to accept some more :). Thanks for the interest!

If you want to get the program only PayPal and BTC are available until tomorrow!

And I will :). Everything need time. I just need some more spare time to do that. No worries, I remember. ?

lajcik - April 22, 2016, 4:07 am

There is some issue, because Twitter updated their system today. Once I will come back from university I will sit and check what is going on. All the licenses will be extended with 2 days of time, because of the update!

@Update - Update has been released :).

Bought TweetUp2 bot today, watched instruction video.

Everything works fine, takes an hour or two to master everything though.

Would totally recommend this if you want to automate your business :)

Does anyone know if there is an autobuy to buy the TweetUp 2 if you're a TweetUp 1 customer for \$25?

There is not, \$25 discount was available manually for those who purchased TweetUp 1 in the very last months of it being developed to do not make them feel hurt or something.

I'm sorry, there are no freebies for old customers :(.

Too many changes in V2 as well as the whole engine changes. TweetUp 1 was working for around 3 years, so... ?

Amazing software I have been using the tweetup one for about 2 to 3 years and about a month ago I decided to upgrade cause it's such a goo software just waiting for someone to put me to tweet up 2 since I paid awhile ago

I do have a ? Lately the program hasn't been unfollowing people it like stops unfollowing people but still has the action running but it just stops and it has been unfollowing people who follow me when I chose the option to unfollow all the unfollowers

Glad to hear that you have a good opinion about the software.

Program is unfollowing people just like it used to do in the past. Everything is just completely fine with that. I'm doing all my daily routines and every single feature works in 100%.

And about that payment of yours - I've sent you a PM, because it's something strange happening, you don't seem to be either in my database or in the history of payments... Hoping that you're not trying to make a fool of me, because that will not happen. ?
