This is definitely a method I have yet to see. I haven't bought a ton of BTC earning ebooks but I've read a fair share of them, and this one is definitely 100% original. Although someone who has done a lot of experimenting may have come across this before.

As for the method itself, it DOES WORK. It may take some time to work but it definitely DOES WORK. The more money you invest into the method, the bigger turn-around/results you will see!

I invested this much to start: Spoiler [\(Click to View\)](#)

After about 30 minutes or so of periodically using the method I ended up with this much: Spoiler [\(Click to View\)](#)

So like I said, it can take some time if you only invest a little. But if you have a decent amount to start with, then you're for sure guaranteed to turn some good profit!

The method in the ebook was also very easy to understand and I didn't have any trouble at all. (Aug 31, 2014 02:35 PM)TheBlackHat Wrote: [\[CITE\]](#) My review

Grammar 9/10 :

The grammar's pretty much onpoint everywhere and it's easy to understand what you're reading.

Originality 8.5/10 :

I'd say this method is pretty original, like the thread demonstrates you are just making trades on a btc trading website to make profit.

Easy of use 8/10 :

Even if you are bad at math, this ebook is still very easy to use to its fullest extent, and with that being said, it's easy to use this ebook to your advantage and make some easy money. However, a good amount patience is required to make that money.

I'm not the author but I can assure you it's fail proof. You literally would have to be an idiot to mess it up.

Thanks for the support Quiver.

I tried to make the eBook as simple and as profitable as possible.

There are other methods I'm willing to teach. They are along the lines of this one but take a lot bigger of an investment (.5-1 BTC).

I might either update this one after the sale or sell a completely new one with this method I speak of.

Pm me if you want me to notify you when it's done.
