Yay thank you buddy ! :D

But my code looks like I literally pooped in a .vb file lol

Anyway, if you have any suggestion to make, like a new theme or anything to change, feel free to tell me

You should move the minimize, maximize and close button to the right. Or give an option to drag and drop each individually.

Well you can move them wherever you want in fact, they are `ControlButton`. So you can put them at the center of your Form if you want ?

Looks pretty sweet can't wait to try it!

SIM-1847363 - September 2, 2014, 1:49 pm

Dang, nice work on the theme, keep up the great work!

SIM-1456245 - September 3, 2014, 12:34 am

Very good color choices. Keep it up.

This looks nice. There is just one thing that I don't like.

There is a 1 pixel gap each side. You should make it smooth.

I think Xeno took this from one of my theme but he forgot to change it :D

Still not that bad, good work bro :)

NeoFiT - September 3, 2014, 8:02 pm

Nice theme, keep up the good work :)

Bcoder - September 4, 2014, 2:55 am

Well, Nice work, That theme looks nice, Keep going

What the fuck you are the fastest build GDI from 2 days, That's theme is my favorites <3! Thanks you very much ???

SaltyHaxs - October 7, 2015, 5:44 pm

Amazing theme! You make beautiful themes.

WhyWork - October 8, 2015, 7:42 am

Very nice and simple theme. It's just missing a tab control :P

Terr0r1st - October 9, 2015, 4:29 am

nice work on the theme, keep up the great work!

coolcurrent - December 1, 2015, 6:46 am

how do i make a combobox, listbox and tabstrip version of the theme
