Am I the only one who was disappointed with the reduced gore from FMA to Brotherhood? The whole style worked with the dark themes but in Brotherhood there was a few blood spots, cuts and nothing more.

What are your thoughts on this? ?

It didn't change the story at all, it was a great story both were. I feel nothing could have made it better :P

Yeah they were great stories, I actually think FMA had a better story line until the end :3
but there was just something about seeing Edward crawling on his missing leg and arm with their monstrosity mangled and spewing blood which i missed :D

I really think this anime is overrated but it isnt 2 bad

But there wasn't any reduced gore? In fact, Brotherhood had more Gore. It was just more spread out so I guess it seemed like less.

Fair enough, i'm pretty sure they changed the colour palette to be more vibrant in brotherhood so it was just a different style to what i expected :3

Brotherhood was amazing, regardless of opinions. Fights like this one just make it even better.

Roy was pretty cool until he fucked up Envy, I've hated him since. ?

The fight with pride in the forest was pretty good, but yeah the fight between Wrath and Fu was

amazing!

Kroonii - September 4, 2014, 5:25 pm

That's so fucking cool, I cannot even even.

basedbaboon - September 4, 2014, 5:53 pm

I liked Brotherhood like 10 times better than the original one. Maybe its only me.

MaximusPrime - September 4, 2014, 11:40 pm

Yeah Brotherhood's story line built up at a good speed with great sub plots, FMA kinda threw it all at you in the end. Both are amazing though :3

Only watched Brotherhood, I liked it, I own in on Bluray

Bobythenoby - September 5, 2014, 2:50 pm

I've not watched all of Brotherhood yet o: I hope it has a better ending than the first one though.

MaximusPrime - September 5, 2014, 7:11 pm

It is a much better ending than FMA :)
