Wtf are you talking about , worked me the other day if it wouldn't have wouldn't of posted ?

Dubzeh - September 6, 2014, 10:27 am

Yeah this worked for me recently, thanks for the share OP

????II?! - September 6, 2014, 10:30 am

It actually does work, and the reason for this is that Facebook found out that Indonesian names are too damn big, and they didn't want to use them that way, therefore they allowed Indonesians to use only the first name on their Facebook(as per their wish).

Pretty unfair on my opinion.

Nice thread OP, Thanks for the contribution, posting with sensible information so I can access it in the future :)

This has been around for a while and as soon as someone reports your account expect your account to be closed.. Facebook requires all legit info.

Kid, I did this not even a month ago, the fuck are you blabbin? You just can't change your First Name without it reverting back to a First/Last without doing the whole process over.

Prob your proxye is shitty ;s

Try with different indonesian proxy.

Warning: It need to be Indonesian proxy or it will not work. Also your language need to be "Bahasa Indonesia".
