Link is attached to image, click to download. I expect 80% of you to read this and download without saying thanks. No, not rep, but an actual thank you. This is a theme that one would sell for \$10+ and I made it to give it out for free. Appreciate it! You're welcome. And yes, both fonts are included along with the PSD. Use it at your own will, just PLEASE do not claim it as yours as that is my biggest pet peeve.

I might just use this in the future.

I appreciate it bro.

It looks nice.

Hi iHydra, can you please tell me how you make those lines, I have asked many people but I can't seem to find it. Thanks already

The line on the bottom of the "base" is a 1px line with Filter > Motion Blur applied to it and Color Overlay + Outer Glow.

The line on the top that goes on the side of the base is a stroke on the base with gradient applied to it and a -90* drop shadow for the glow with a distance applied so it doesn't drop shadow doesn't show from the bottom.

Download the PSD and take a look at it.

You can also open the PSD and take a look at the layer style to see what I used precisely.

Arctic Wolf - September 13, 2014, 2:57 pm

I wonder why would you feel like that just because you saw it asking the password

Arctic Wolf - September 15, 2014, 2:44 pm

I was feeling like that because I thought I missed on the thread where the password was, so I kept looking and I never saw it and thought I kept missing it.

R00tReap3r - October 29, 2014, 8:53 am

Hydra - November 10, 2014, 9:56 pm

Link fixed. For some reason bit/ly isn't parsing correctly with MyBB's URL tags.

EDIT: bit/ly has been censored, that's why.

Stu-Pot - November 13, 2014, 10:40 am

Simple, not my style, but not bad at all.

Suggested for simple projects.

zellez - January 27, 2015, 2:02 pm

Looks sick thanks man for the link.

Beckham - January 29, 2015, 6:58 pm

Good design, but OP has a lack of attention to detail, as Annually is blatantly misspelled as "Anually".

A typo has nothing to do with having "attention to detail." And if I lack the "attention to detail," it wouldn't make sense to say I blatantly misspelled "Annually".
