Thread: [Bot Clicker v1.1\(Proxy Grabber+Proxy Checker+ Country proxy\)](#)

rahulrh129 - September 7, 2014, 11:24 am

Today I gone share my Bot Clicker v1.1 and proxy Grabber which i have been recently developing in visual studio I would like to share with you all my visitor do not miss use it.

Here is video of how to use and what it is.

[Video: <https://www.youtube.com/watch?v=osva8ub36Qc>]

Sorry for the bad video i dint take to much stress to make it so forgive me i am lazy.

Key Feature of Bot Clicker

Set Button id to automatic click every time it visit website

Set Button Location to click every time it visit website

Wait before click time can be set

wait after click time can be set

Multiple click can be set

It can count how many successful click done

Can disable proxy

Can Check till you don't stop

Can shut down computer after checking with all proxy

Disable nose by the web browser

key Features of proxy Grabber :

Can Grab as many URL link you want.

Can Grab proxy from grabbed URL.

Can grab proxy by country list.

Check proxy alive or not.

Check proxy in 3 step Fast, Medium, Slow proxy.

You can add more URL to database to get more result(note :- do not edit if you don't know).

This file is only testing version released. All other drawbacks suggestion and comments are welcome. We will be happy to serve you. Have a great day :)

I have not provided virus test but you are free to test on <https://www.virustotal.com/> or anywhere dosen't matter

You Can download from my website [here](#)

I am developing something similar and I can help you I believe. I am confused about Adf.ly rules and all that and I would like to test this in some scenarios to see if I will get ban :)

Please give me test app.

Thanks
