EDIT:

GRAMMAR: Not the best, but was very easy to read and understand, the pictures helped too!

EFFECTIVENESS:This method can be extremely effective depending on certain circumstances which I am unable to disclose, all I can say is it is defiantly within your control.

CONTENT: Very thorough instructions, a couple broken links but its no big deal as names of linked sites were present. Again, the pictures helped me set things up and was a very simple process!

I CONCLUDE: I give this eBook a 4.5/5! Very simple method and it wont be saturated any time soon!Review 2: (Sep 9, 2014 05:51 PM)Calvin and Hobbs Wrote: [\[CITE\]](#) Just bought this ebook. Im new to these forums and this is my first purchase! Ill let you know what I think :p

EDIT:

My review- This ebook is extremely easy to follow including the pictures throughout. It is easy to set up and start going. I have already received my first payment of \$50.00 on paypal only a few days after purchase and am extremely happy that it worked! I was surprised to see this ebook was about 20 pages of information! Rating 9.5 / 10

Nickyapril123 is sending me a review copy.

REVIEW:

EZ-Money is a easy to follow guide that does take a very little investment to start off with. Were talking under \$12. The method itself is nothing new, people have been doing this for a long time now. There is a little work involved, it's nothing that can be done on autopilot. If you have a little money to invest, this might be worth looking into as long as you are someone that's going to put it to action.

I've started to put the method to action, and once I have proof of earnings, ill come back and post them. This is NOT an instant money maker. Takes some time.

I will update post once I have fully read & put method to use.  
Will do my best to provide earnings proof if this does indeed work well.  
Copy has been sent. Thanks for reviewing my ebook!

Hello,

Just bought the ebook and want to share my honest feelings about it. I'm sure i'll earn money and i'll share with you ASAP

First of all the Layout and the grammar of the book is very clear and easily understandable. There're plenty of pics so you don't have chance to lost in ebook.

Let's come in to method, to be honest i paid 10s of ebooks and read over 100s of ebooks but i never saw a method like this. I cannot say it's unique but the twist of the OP makes it different. I can clearly say that it wouldn't be saturated for years.

As said in the topic, it's not an automated and sit and wait method, you need to make setups but author describes every little detail for noobs so you don't need to worry about it.

You need to invest a little around 20 dollars but after your first returns you can understand that it's nothing !

Finally, the method itself very promising and if you follow and do each step correctly almost %100 you can earn good money !

Regards,
