Big vouch for my partner and friend.

Don't hesitate to deal with him.

I'm going to PM you about a job. If your not interested it's fine.

Anabolic - September 29, 2014, 3:24 pm

How experienced are you with PHP? I have something but it's a large job and would probably take a couple weeks solid coding time. Good rate of pay.

If it's too big, spoofable and I could work together on it (in theory).

we've worked together on projects in the past.
