Post a comment on who your favorite anime character is and why :D

Soulmate - September 9, 2014, 1:03 pm

Makise Kurisu from steins;gate. Some people say she's really overrated but she's a well rounded character and some of the stuff she says in the show is really funny sometimes

Ang?I - September 9, 2014, 1:17 pm

Rize Kamishiro and Mirai Kuriyama are my favorites.

CyberStudio - September 9, 2014, 3:01 pm

Ayase from Oreimo, or Tatsumi from Akame ga Kill.

Both are pretty swag.

Deany - September 9, 2014, 3:02 pm

I think mine is more than obvious. ?

Nine - September 9, 2014, 3:11 pm

For a male anime character, I would say Gohan from DBZ or Black Star from Soul Eater. Just think they're badass.

As for a female character, Mayuri from Steins;Gate because...

Yuno Gasai, because in my eyes she's a perfect 10/10 she may have been a psycho in many people's eyes but she did it all because she loved Yukki and wanted to be with him, she went through all the pain just to be with him for one more year. A pink haired girlfriend who would be willing to protect me from everything and give her life for me if needed is just... perfect..

For male, Kaneki because of how badass he becomes

vicvance20 - September 9, 2014, 3:17 pm

Must be killua or Madara Uchiha or Gray Fullbuster, why? Because they are badass as fuck

Uhhh okayy! i got a couple for you! :D

- Sekirei

The main guy gets a butt in the face that falls from the sky out of no where. He then forms a contract with the girl for so that she gains power to eliminate other "Sekirei". Well, basically, you see woman with ridiculously large breasts fighting each other, fighting over a regular guy. This only happens in fantasy worlds. It is still a good anime nonetheless. (i could not know how i can tell you about the anime without spoiling so i got a little summary from google) x(

- Queen's Blade

In Queen's Blade, scantily clad woman in armor holding huge swords fighting for the right to be the next most powerful Queen. I know in real battles, you need full on armor to survive tough fights, but I guess in this case, less is more. There is a game that came out after the anime, which is quite interesting. (same story about spoiling) x(

Lelouch vi Britannia & C.C - Code Geass

Light Yagami - Death Note

Kirito & Asuna - Sword Art Online

Lelouch is plain badass and a master strategist/analyst/commander which I love.

C.C is mysterious, not revealing and very chilled out.

Light Yagami had the honor of writing furiously whilst shouting "I'LL TAKE A POTATO CHIP AND EAT IT" (also proved to be a total badass strategist, but hey)

Kirito because I loved fencing and his skills with a blade - despite how fake - are admirable.
